General Information

Take the time to carefully read the contents of this catalog. Be sure to review minimum requirements for all HSD diplomas, including changes for the Chancellor's diploma, Career and College Pathway requirements, and other essential information that will help you plan and course select your schedule for the 2026-2027 school year.

Message from the District

Dear HSD students and parents,

The faculty and staff of all HSD high schools are committed to providing our students with a rich, challenging and meaningful educational experience. Academic programs are designed to offer every student the opportunity to excel and to build a strong foundation for success after high school.

This course guide is an essential tool for making the important educational decisions that lie ahead for you. Please review the guide so that you are informed of graduation requirements, college admission standards, and course descriptions and requirements. Carefully consider the course selections and program decisions that you will be making. These decisions will shape the foundation you build for your future.

We encourage you to seek the advice of counselors and teachers as you work through your course selection process. We look forward to partnering with you during your high school career.

Cognia Accreditation

HSD is the first K-12 school district in Oregon to receive full systems (districtwide) accreditation by Cognia, a non-profit, non-partisan, international organization of education quality assurance professionals.

Nondiscrimination Statement

The Hillsboro School District recognizes the diversity and worth of all individuals and groups. It is the policy of the Hillsboro School District that there will be no discrimination or harassment of individuals or groups based on race, color, religion, gender, sexual orientation, gender identity, gender expression, national origin, marital status, age, veterans' status, genetic information or disability in any program, service, or activity for which the District is responsible. The District will comply with the requirements of state and federal law concerning non-discrimination and will strive by its action to enhance the dignity and worth of all persons.

Using This Catalog

This course catalog is designed to help you make wise selections from the courses offered at Hillsboro School District high schools. Take the time to review the catalog carefully. As your student prepares to select courses for 2026-2027 coursework, it is important to review the minimum requirements for all Hillsboro diplomas. Please note the Essential Skill proficiency requirements in reading, writing and mathematics.

When selecting courses for next year, students and parents should keep the following in mind:

- All courses and programs offered are contingent upon adequate funding.
- All courses offered are dependent on enrollment. If an insufficient number of students request a course, it will not be taught.

Courses are divided into two types: required and elective. **Required** courses are those a student must pass to meet the state of Oregon and Hillsboro School District requirements for graduation. **Elective** courses are designed to build skills in areas of study that meet the student's need for vocational and college admission, as well as the pursuit of individual interests. Students are required to pass some elective courses as well.

Not all courses are offered at every high school.

Understanding a Course Description

Course(s) required to be successfully completed before student is eligible to take this course ➔

Course title

Grade level of students that may enroll in this course (schools that offer this course)

ART 2

Grades: 10-12 (CHS, GHS, HHS, LHS)

Prerequisite: Art 1

1.0 credit

Credit earned by passing this course

Course content and expectations

Building upon the skills established in Art 1, this second year foundation course concentrates on enhancing the student's creative energy. The course will include development of visual awareness, problem-solving, creativity, and perspective. Students will be introduced to elements of design, life drawing, illustration, and color theory through the mediums of paint, pen and ink, and pastel.

Symbols that may appear are:

for Advanced Placement

for International Baccalaureate

for CCP Shuttle Accessible Programs

Academic Information

High School Diploma Requirements

Hillsboro School District diplomas satisfy the Oregon State Board of Education's rigorous statewide graduation requirements for students. The chart below displays the **MINIMUM** course and credit requirements needed to graduate with the student's desired diploma (*see note 1*)

Subject Area/Required Elements	Chancellor's Diploma	Standard Diploma	Modified Diploma	Extended Diploma
Language Arts (LA)	4 credits	4 credits	3 credits	2 credits
Mathematics (MA)	4 credits (including Algebra 1 level or higher)	3 credits (Algebra 1 level or higher)	2 credits	2 credits
Science (SC)	3 credits	3 credits	2 credits	2 credits
Social Science (SS)	3 credits	3 credits	2 credits	3 credits (history, geography, economics or civics)
Science/Social Science (additional)	1 credit			
Physical Education (PE)	1 credit	1 credit	1 credit	1 credit
Health (HE)	1 credit	1 credit	1 credit	1 credit
Career and College Development	0.5 credit	0.5 credit	2.5 credits	
Senior Project (SP)	0.5 credit	0.5 credit	0.5 credit	
Applied Arts , Career Technical Education, or World Language (AA/CTE/WL)	3 credits (including 2 credits of same world language)	3 credits	1 credit	1 credit (art or world language)
Electives (EL)	4.5 credits	4.5 credits	8.5 credits	
Personal Financial Education (PFE)	0.5 credit	0.5 credit	0.5 credit	
Proficiency in Essential Skills: <i>reading, writing, and mathematics (see note 2)</i>	required	required	required (modifications allowed)	exempt
Chancellor's Diploma:				
Academic credits are met through courses in	English, mathematics, science, social science, applied arts, career technical education, and world language			
Number of required academic credits	18 credits			
Minimum number of required academic credits in advanced-level coursework (designated as Advanced Placement, International Baccalaureate, dual credit courses)	4 credits			
Minimum grade in every required academic course	C <i>(see note 3)</i>			
Required cumulative, unweighted GPA in academic courses	3.0 GPA unweighted			
Required unweighted GPA in all coursework	3.0 GPA unweighted			
TOTAL CREDITS REQUIRED	26	24	24	12

Notes:

1. It is the expectation of the State of Oregon and our district that students engage in a full and complete educational experience. New legislation has required our district to ensure most students are taking a full day of classes each day. Students should work with their counselor for work experience, internships, and other off campus experiences as applicable.
2. Essential Skills mastery is typically obtained through satisfactory scores on the SBAC, ACT, PSAT, SAT or AP tests. Alternatively, students may produce work samples to show mastery. More information about Essential Skills may be found at: bit.ly/2DfYHcR
*The assessment of Essential Skills Policy is suspended per SB744 through 2027-2028
3. Students who receive two or more proficiency-based credits in world language with STAMP test scores meet this requirement.

Weighted Grades

Not all courses are offered at every high school. A student's unweighted GPA is calculated using two factors: credits earned and the "grade points" that are awarded to letter grades (A = 4 points, B = 3 points, C = 2 points, D = 1 point).

Weighted grades add a "bonus" to the regular letter grade points. Only Advanced Placement (AP) and International Baccalaureate (IB) courses will be weighted. Grades A, B, and C earned in these classes will receive an extra grade point, which will increase the GPA that students earn in these courses: an "A" that is earned in a weighted class will yield 5 grade points (4 points for the "A" and 1 additional point as a weighted bonus), a "B" will yield 4 grade points, and a "C" will yield 3 grade points.

Examples:**Unweighted GPA Calculation**

Factors	Class 1	Class 2	Class 3	Class 4
Letter Grade	A	B	A	C
AP or IB Class?	y	n	n	y
Grade Points	4	3	4	2

unweighted GPA = $(4 + 3 + 4 + 2) / \text{number of classes} = 13 / 4 = 3.25$

Weighted GPA Calculation

Factors	Class 1	Class 2	Class 3	Class 4
Letter Grade	A	B	A	C
AP or IB Class?	y	n	n	y
Grade Points	5	3	4	3

weighted GPA = $(5 + 3 + 4 + 3) / \text{number of classes} = 15 / 4 = 3.75$

The transcripts of students who graduate from Hillsboro School District will include both a unweighted GPA and class rank, and a weighted GPA and class rank.

A student's class rank is based on their GPA. A student with a class rank of 43, for example, has the 43rd-highest GPA in their graduating class. Providing both the unweighted and weighted GPA and class rank information will benefit students whose applications are reviewed by college entrance and scholarship committees that make use of either system. This dual reporting system benefits students by providing additional information about their academic records.

Graduation Honors

Students who earn a Chancellor's Diploma may be eligible for graduation honors. All honors designations are based on unweighted GPA. This information is defined in Hillsboro School District Policy IKF.

Chancellor's Diploma

The Chancellor's Diploma will be awarded to students who have demonstrated their commitment to a rigorous course of study during high school in order to prepare for college and career success. The Chancellor's Diploma includes classes and requirements that promote critical thinking skills and an enriched learning experience. These requirements are aligned with general Oregon university admissions, but do not guarantee automatic acceptance. Students who earn a Chancellor's Diploma demonstrate the experience that is desired for every student in the Hillsboro School District. All students earning a Chancellor's Diploma will be recognized with a Chancellor's Diploma Recognition during the graduation ceremony.

Valedictorian

Students earning a Chancellor's Diploma and receiving an unweighted GPA of 4.0 for all classes taken will be recognized as valedictorians. In the event that no students receive a 4.0 GPA, but earn a Chancellor's Diploma, the student(s) with the highest GPA will be recognized as the valedictorian(s). More than one person may be recognized as the valedictorian(s).

Salutatorian

Student(s) who earn a Chancellor's Diploma and have the second highest unweighted GPA will be recognized as the salutatorian(s). More than one person may be recognized as the salutatorian(s).

Honors Graduate

The students who earn a Chancellor's Diploma and maintain a 3.75 unweighted GPA will be recognized as honors graduates.

Common Admission Requirements for Oregon Public Universities

While each university or college determines their own admissions requirements, the following can be used as a guide for most public institutions in Oregon. These are general admission requirements; additional requirements may apply for scholar ships and honors college, as well as the NCAA's requirements for athletic eligibility. Please reference the admission requirements for each postsecondary institution for specific requirements including GPA, test scores and other requirements. As a result of the COVID-19 global pandemic, many universities and colleges have adjusted admissions requirements. Be sure to reference the most up to date admissions information on each university/college website.

College Preparatory Subjects	Minimum Units
English	4 credits
Mathematics <i>(culminating in Algebra 1 or higher)</i>	3 credits
Science <i>(at least one year of laboratory science is recommended)</i>	3 credits
Social Studies	3 credits
World Language <i>(many institutions also will accept a satisfactory score on an approved proficiency assessment)</i>	2 credits of the same language

SAT or ACT scores are required for admission to some four-year colleges. C- or greater must be awarded in each college-preparatory subject course for automatic admissions.

Freshman GPA Admission Requirements for Oregon Public University System

University	High School GPA
UofO	C or better**
OSU	3.00
PSU	2.5
EOU	2.75*
OIT	3.00
SOU	2.5
WOU	2.75*

* *Minimum test scores are not set, but test results must be submitted and may be used during additional campus review processes.*

** *C or better in Core/2nd Language*

Community College Requirements

Oregon community colleges have an open-door admission policy. At a community college, students can complete a certificate program, a two-year associate program, or prepare to transfer to a four-year college. Placement testing at community colleges is required prior to registering any courses. Students are not required to take the SAT or ACT for community college admission.

Private Colleges and Universities

Students may want to consider private colleges and universities. These institutions have their own entrance requirements. Consult your counselor and research the individual college/university's requirements in the Counseling Center or online, or speak to an admissions representative.

NCAA Athletic Eligibility

The NCAA has additional requirements for athletic eligibility, which may be found at www.ncaa.org/student-athletes/future. If you are planning on pursuing participation in an NCAA sport, please contact your school's athletic office as soon as possible.

Note that the NCAA states that it is the student-athlete's responsibility to ensure they are taking the correct courses to be NCAA-eligible.

Testing Dates for 2026-2027 School Year

Be sure to check the admission requirements of your potential colleges or universities to determine if they have a preference for the SAT or ACT for admission. Note that test scores are only part of a student's review for admission; coursework, grades, and activities also weigh into the evaluation. Students/families are responsible for registering themselves for any test dates. Information can be found in the College and Career Center in each high school. Qualified students may be eligible for testing fee assistance.

PSAT/NMSQT

The Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) is a standardized test administered by the College Board and co-sponsored by the National Merit Scholarship Corporation. Upcoming dates:

- October 1-31, 2026

SAT

The Scholastic Aptitude Test, or SAT, is published by the College Board and is used to assess college readiness. The SAT comprises testing in critical reading, mathematics, and an optional essay writing section. Anticipated test dates:

- August 15, 2026
- September 12, 2026
- October 3, 2026
- November 7, 2026
- December 5, 2026
- March 13, 2027
- May 1, 2027
- June 5, 2027

ACT

The American College Testing, or ACT, college readiness assessment is a composite, standardized test in four skill areas: English, mathematics, reading, and science. The optional writing test has students plan and write a short essay. Anticipated test dates:

- September 19, 2026
- October 17, 2026

- December 12, 2026
- February 27, 2027
- April 10, 2027
- June 12, 2027
- July 10, 2027

Students should investigate when SAT/ACT scores are expected at the colleges they are interested in. They should backward-map to the test date to ensure they will meet timelines. Additionally, please be aware that many colleges have adjusted SAT/ACT requirements over the past few years. Be sure to reference the most up to date information on the college website.

Counseling Procedures

See also the Career and College Pathways section to view other counseling activities performed throughout the year.

Course Selection/Planning

Students are advised to plan ahead and select carefully. A significant amount of time and effort is devoted to giving students their first-choice electives (or alternates). The offering and staffing of courses will be dependent on the requests made during spring course selection. Students are expected to take and complete the classes they have requested.

Students will receive guidance on course planning throughout the school year, including:

- Classroom guidance
- Four-year course planning (Xello)
- Course Selection presentations
- Career & College Pathways
- Individual and small group planning
- Counseling websites
- Family nights

Things to Remember

- PLEASE CHOOSE CAREFULLY. Your schedule is created based on your course requests and course availability.
- If you are participating in an OSAA activity, you need to be enrolled in a minimum of five credited classes in both the current semester and prior semester.
- Students who do not complete their course selection sheet will have classes chosen for them based on class availability.
- It is the expectation of the State of Oregon and our district that students engage in a full and complete educational experience. New legislation has required our district to ensure most students are taking a full day of classes each day. Students should work with their counselor for work experience, internships, and other off campus experiences as applicable.

Schedule Correction Procedures

Schedule corrections will only be considered for the following reasons:

- Student needs to take a required course for graduation
- Student was placed in an inappropriate course/skill level
- Student has a “see counselor” note or incomplete schedule
- Student was not placed in an elective that is part of their Career and College Pathway

Schedule corrections will not be made for:

- Lunch requests
- Teacher requests
- Peer requests
- Changing unwanted core class(es), such as a fourth year of math or science
- Athletics/Activities
- Dropping AP/IB courses

- Changing unwanted electives
- Early release/late arrival

It is possible that a student may have received electives for which he/she did not request. This is due to limited space in classes or a schedule conflict making it impossible to fill a schedule hole with a requested class.

Course Corrections and Changes

The master schedule, including how many sections of each course is offered, is based on the course requests made during the spring of the previous school year. Due to this, schedule and course corrections are difficult to make because often there are not available spaces in the course. Because students and families are able to view course selection choices through Synergy StudentVue and ParentVue, and request changes in the spring, course corrections will rarely be considered in the fall once school has begun.

Ultimately, all course corrections are subject to review and approval by an administrator. After three weeks, course changes could result in a Withdraw Fail (WF) grade on the student's transcript. A WF will calculate into the cumulative GPA as an F.

Accessing Course Options Beyond Home High School

We believe that the coursework within our HSD comprehensive high schools offers a robust variety of opportunities for our students to meet Oregon Diploma requirements. There may be instances in which a student or their family believe coursework outside of their home school may be appropriate, for example meeting a student's academic rate and level. Hillsboro School District is not always able to meet these requests from students and families. Please connect with your counselor if you have questions.

Expanded Options Program

Hillsboro School District offers the Expanded Options Program (EOP) to 11th and 12th grade students who have utilized all options of course opportunities provided by their local school. In partnership with Portland Community College, students have access to college level courses in order to further their educational experience. If students are interested in learning more about EOP, they should contact their school counselor no later than course selection for the following school year.

Early Graduation

A student who wishes to graduate from high school in less time than the ordinary grade 9-12 sequence may request permission to complete graduation requirements on an altered schedule. This should take place during the 10th grade course selection process. The student and their parents/guardians will consult with high school guidance personnel to develop a graduation plan. Their intention to accomplish this plan will be stated in writing to the Superintendent or designee. More information about early graduation can be found in Hillsboro School District School Board Policy IKF.

Academic Opportunities

9th Grade Academy (Liberty High School)

Ninth Grade Academy

The Liberty Ninth Grade Academy opened in fall 2007 with the goal of making a smooth transition from middle to high school for ninth-grade students. By providing a smaller, more efficient learning environment, we are able to present students with an intensive academic experience.

Instructional Program

Ninth grade students are required to complete the curriculum prescribed by the Hillsboro School District, comprising language arts, mathematics, science, social science, physical education, and one or two electives.

School Counseling Program Services

The ninth grade counselor and the ninth grade AVID counselor are dedicated to assisting students in the areas of personal and social skills, career pathways, academic development, and community involvement. Parents will be informed of school counseling activities through the school newsletter and website.

Dual Language Program (Century High School, Glencoe High School, Hillsboro High School, Liberty High School)

Dual Language Program

All four of our comprehensive high schools offer dual language learning opportunities in English and Spanish. As Hillsboro School District's dual language program has grown from elementary school to middle school to high school, course offerings have been designed to best meet the needs of our students.

Hillsboro High School offers a specialized four-year course sequence in dual language completing the PK-12 program and focusing on developing fluency and Spanish language interdisciplinary studies. Century High School, Glencoe High School, and Liberty High School began their Dual Language program expansion in 2020 and 2021 offering a specialized four-year course sequence completing the PK-12 program for their feeders.

All four schools are committed to offer at least two core courses in Spanish based on staffing. One of these courses is Spanish Language Arts aligned to the Language Arts Oregon State Standards. These courses look very much like an English language arts class, but are taught in Spanish using authentic Spanish literature. Additionally, this course offers students the opportunity to earn Language Arts Credits or World Language Credits.

In addition to aligning to state standards, all courses center themes from the Three Pillars of Dual Language Program: Bilingualism and Biliteracy, Academic Achievement and Socio-Cultural Competence.

Native Spanish students, Heritage Spanish students and/or students who were previously in a dual language program who wish to enter the program at the high school level are encouraged to meet with their counselor to determine if they meet the entry criteria.

Dual Language Program Goals

The goals of the program are:

- Develop high levels of proficiency in Spanish and English
- Develop bilingualism, biliteracy and biculturalism
- Develop positive cross-culture attitudes and behaviors
- Provide authentic opportunities for service in Spanish-speaking communities in the region
- Provide students with the cognitive skills required to excel in high school, college and the workplace.

Academic Opportunities

Students enrolled in the Dual Language Program at Century High School, Glencoe High School, Hillsboro High School, and Liberty High School are eligible for the State Seal of Biliteracy and Multiteracy. In order to earn the State Seal, students need to demonstrate a score of at least high intermediate levels (6 or higher on the ACTFL rubric) in reading, writing, speaking, and listening in two or more languages. Students may demonstrate this through state approved assessment (AP, IB, STAMP, WorldSpeak, etc.) or via a student work portfolio. Please note that the State Seal of Biliteracy and Multiteracy available to any district student who meets the state requirements.

Students who finish a four-year sequence of the Dual Language Program instruction are eligible for HSD Bilingual recognition at graduation if they score intermediate proficiency in at least two domains.

The following courses are projected to be offered in Spanish as part of the Dual Language Programs at each high school (*adjustments may occur based on staffing*):

Century High School	
9th Grade	Spanish Language Arts 9
	Data Reasoning & Geometry
	World Studies
	Physics 1
10th Grade	Spanish Language Art 10
	Chemistry
11th Grade	AP Spanish Language and Culture
	Biology
	US History
12th Grade	AP Spanish Literature and Culture

Glencoe High School	
9th Grade	Spanish Language Arts 9
	Physics 1
10th Grade	Spanish Language Arts 10
11th Grade	AP Spanish Language and Culture
	Biology
12th Grade	AP Spanish Literature and Culture

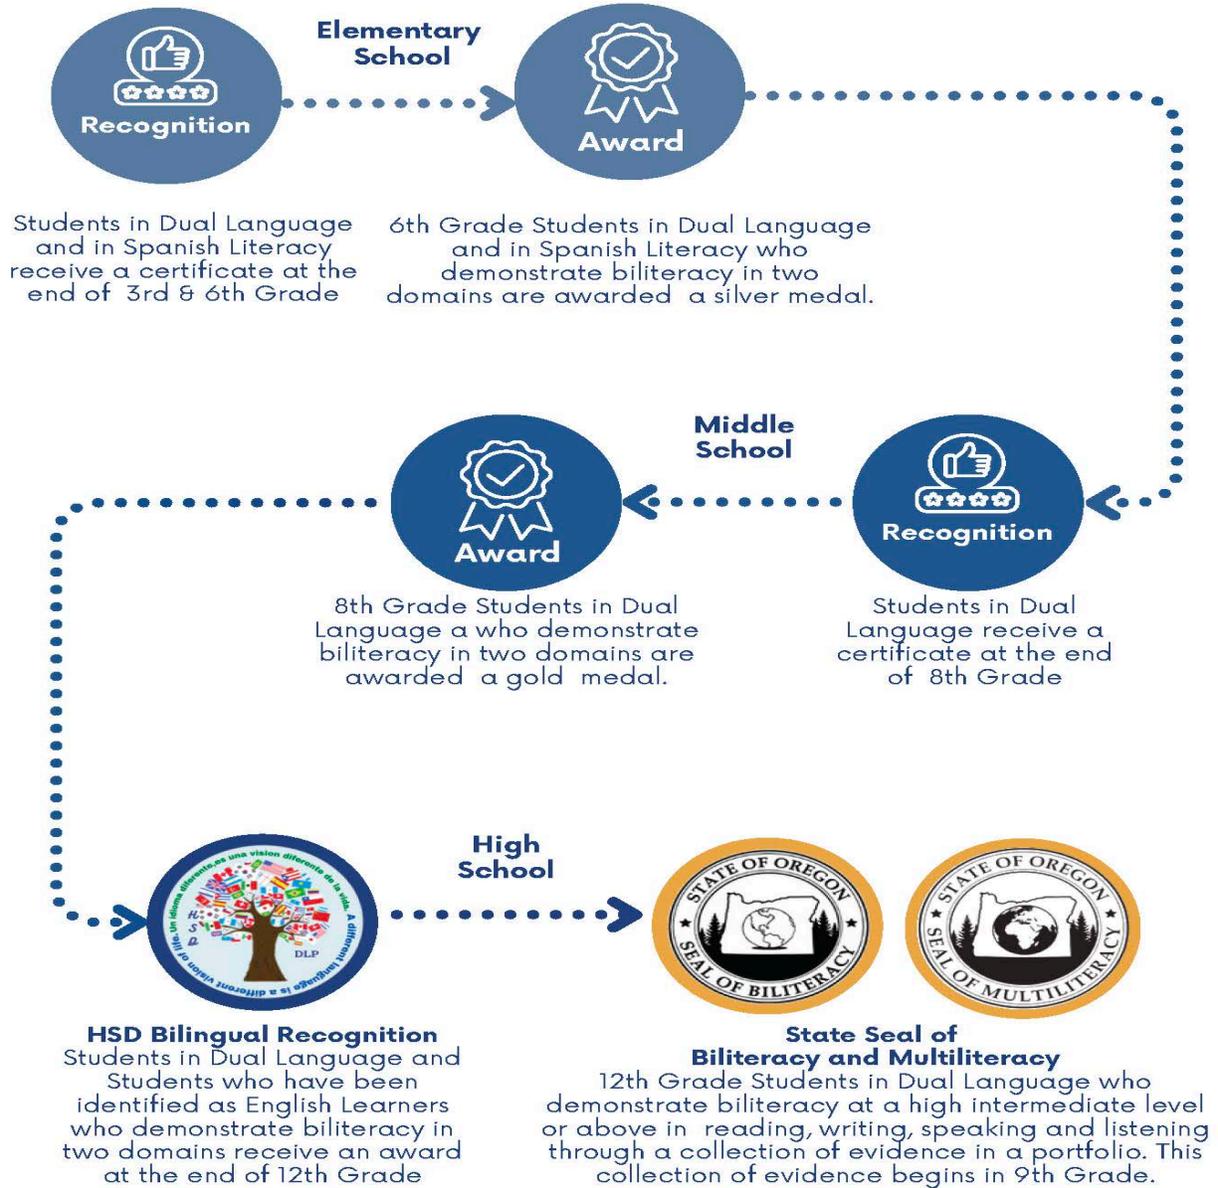

Hillsboro High School	
9th Grade	Spanish Language Arts 9
	Data Reasoning & Geometry
	US History
10th Grade	Spanish Language Arts 10
	Chemistry
11th Grades	IB DP Spanish A Language and Literature HL1
	Spanish Language Arts 11
	Biology
	IB DP Global Politics SL
12th Grades	IB DP Spanish A Language and Literature HL 2
	Spanish Language Arts 12
	IB DP Global Politics SL

Liberty High School	
9th Grade	Spanish Language Arts 9
	Physics 1
10th Grades	Spanish Language Arts 10
	Health
	Algebra 1

	Spanish Language Arts 12

Pathway to State Seal of Biliteracy and Multiliteracy

PATHWAY TO STATE SEAL OF BILITERACY AND MULTILITERACY

MULTILINGUAL PROGRAMS

Hillsboro Online Academy

Empowering Learning in the Virtual World

At Hillsboro Online Academy, we are committed to redefining education in the digital age. Our mission is to provide a flexible and innovative K-12 hybrid-online program that nurtures a love for learning and prepares students for success in a dynamic, virtual world.

Our Story

We were established in 2012 as the first online public school in Oregon, with a vision to embrace the potential of online education to meet the ever-changing diverse learning needs of students. Hillsboro Online Academy has been a pioneer in delivering high-quality virtual and hybrid learning experiences.

Educational Philosophy

At the core of our academy is a dedication to fostering a positive and engaging learning environment. We believe in the power of personalized education, where students can thrive academically and develop essential skills for the future. We are committed to giving our students a safe learning environment with more access to 1:1 teacher support, while still offering social opportunities online and in-person.

Hybrid Learning Model

Recognizing the importance of a well-rounded education, our hybrid learning model seamlessly blends virtual and in-person elements. This unique approach allows students to benefit from the flexibility of online learning while enjoying the advantages of face-to-face interactions. Our K-6 students have the opportunity to come in person on Mondays and Wednesdays for STEM, Art, Music, PE and classroom lessons. Our 9-12 students have multiple opportunities throughout the week to come in person and work 1:1 with their core teachers during drop-in hours. At each grade level we offer various clubs and "Social" times online and in person throughout the month that include fun, food and games.

Student Support

Personalized Support Services: We understand that each student is unique. Our program provides a Wellness Support Counselor, two Academic Counselors, Graduation Coach, Hispanic Family Liaison, Special Education case managers and an ELD teacher. We strive to ensure that every student receives the attention they need to succeed.

Full-time or Concurrent Enrollment

Hillsboro School District students may enroll in Hillsboro Online Academy as a full-time student, or as a concurrent student while enrolled in a comprehensive district high school. Full-time HOA high school students complete all State of Oregon graduation requirements and, upon completion, will be awarded a Hillsboro School District diploma. Prospective students and their parents/guardians can visit <https://sites.google.com/hsd.k12.or.us/hillsboroonlineacademy/home> for information on our enrollment process.

Hillsboro Online Academy is accredited through Cognia, and core academic courses are NCAA- approved.

hillonlineacademy.org

K-8:

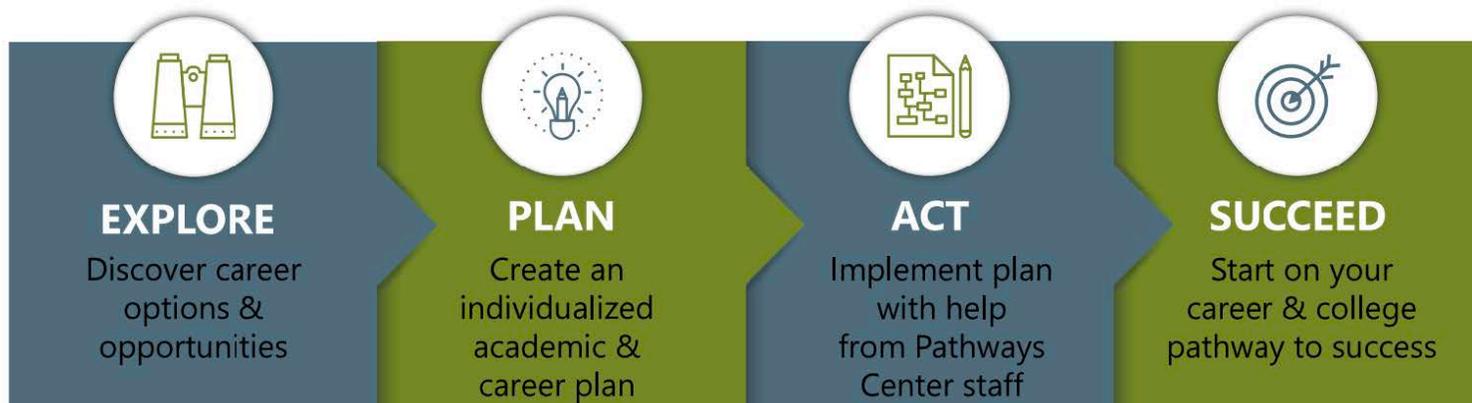

7201 SE Kinnaman St

Hillsboro, OR 97123

Oak Street Campus

The Oak Street Campus supports HSD students through age 21 to:

Oak Street Campus is home to students from all of our HSD high schools who seek a smaller and more individualized educational environment. At OSC we want students to explore careers and options to find their own path to success. OSC provides programming that is housed within The David Hill and Pathways Center buildings that is accessible to district students. OSC provides a variety of experiences, services, and supports through a continuity of care model.

Oak Street Campus provides option programs and opportunities for Hillsboro School District students. Students can enroll in specific programs:

- David Hill Building - Hillsboro Big Picture, 9th Grade Interval, Teen Parent Program.
- Pathways Center - Early College, GED, Career Action Lab, Diploma Completion for 12+
- Also on OSC, Stan Miller Community Center, and Hillsboro Community Garden

Our goal is that through intentional collaboration with both HSD and out of district schools and programs we will ensure students transitions are free of systemic barriers with multiple access points to achieve their goals. Please reach out to your school counselor to discuss alternative options in Hillsboro.

Hillsboro, OR 97123

Hillsboro Early College

The Hillsboro School District Early College program allows students to begin earning college credits as a full-time student at Portland Community College while still in high school. College credits earned apply to both the high school diploma and college studies. Students will have the opportunity to take 12 credits per term (fall, winter, spring) during the school year in which they are enrolled in HSD Early College. Students who

enroll at the start of their 11th grade year will have the opportunity to participate in up to 6 terms of HSD Early College, while students entering at the start of 12th grade may participate in up to 3 terms. Students accepted to HSD Early College will not be able to enroll in courses at their home high school, however they may be able to participate in OSAA activities and athletics.

Selection Criteria:

Hillsboro School District seeks to enroll a diverse and representative group of students into the Early College program. Criteria for selection includes:

- Incoming high school 11th & 12th graders who are, or are mostly, on track for timely graduation
- Students who are ready to attend PCC full time for the remainder of high school measured by college readiness survey and student interview.
- Students whose attendance, academic performance, or other circumstances indicate lack of engagement or interest in their home high school as measured by school records.
- Students who may be considering alternative graduation options but are academically capable of college coursework as measured by PCC placement exams and high school coursework.
- Students whose individual circumstances may create barriers to college matriculation after high school as reported in application essay and interview process.
- Students who are motivated toward a specific career pathway and would benefit from attending PCC courses in this career area as reported in application essay and interview process.

***HSD Early College Seeks to admit a student cohort that is representative of the demographics of the Hillsboro School District. Every effort will be made to ensure a diverse and representative application pool and HSD Early College may conduct additional outreach if the applicant pool does not meet this goal.

HSD Early College Admission Qualifications:

- Applicant resides in the Hillsboro School District catchment area
- Acceptable high school grade/credit attainment to date: 14 high school credits by the end of 10th grade 18 credits by the end of 11th grade
- Completion of PCC College Placement Testing, with scores placing the Early College candidate into Writing 115 or above, Reading 115 or above, and Math 60 or above.

Selection Process:

1. Completes online PCC Application
2. Complete PCC Math Placement Test
3. Complete Online HSD Early College Application
4. Selection process will follow
5. If necessary, the District level team may choose to conduct additional outreach and selection in order to ensure a representative and diverse student cohort

Students who elect to take dual credit should consider how the course will align with their post-secondary goals. **Students and parents/guardians should talk to their high school counselor about the benefits and potential costs of enrolling in college level courses.

(Please see course catalogue section on Dual Credit for more information and considerations)

Senior Project and Portfolio

Each Hillsboro School District high school senior is required to complete a senior project in order to graduate. The requirement for these projects is set by the District and the Oregon Department of Education. Students completing a Career and College Pathway will have the opportunity to complete their senior project requirements through the advanced-level capstone course. Capstone courses are identified in the capstone column of the Career and College Pathway Courses Sequence charts. Seniors not enrolled in a Career and College Pathway will complete their senior project through a Senior Seminar course.

Senior-level Career and College Pathway courses and Senior Seminar provide students the opportunity and support to design and implement their senior project. The project will represent the interests, knowledge, and skills they have gained in high school and their visions for their future education and work.

Senior portfolios include:

- Educational plan and profile
- Evidence of extended application (requires a research or reflection paper)
- Project documents and evaluations
- Exhibition documents
- 15-hour minimum career related learning experience*

* Cord eligibility may require additional hours, please see School-to-Career Specialist.

College Level Opportunities

Each Hillsboro School District high school provides opportunities for students to access college level learning opportunities through either Advanced Placement courses, International Baccalaureate courses, or dual credit opportunities in partnership with area colleges and universities. These programs and courses allow students to experience rigorous learning opportunities at the college level within the supportive environment of their high school, reducing gaps in college access and academic achievement. This can help students with a smoother transition into post-secondary schooling by enabling them to earn college credit and prepare for college level expectations. These college level opportunities can often result in college credit that can be transferred towards the post-secondary degree or certificate.

Additional information and resources about college level opportunities and transferability can be found at the Higher Education Coordinating Commissions website:

<https://www.oregon.gov/highered/about/pages/accelerated-learning.aspx>

Read on about AP, IB, and dual credit offerings in HSD.

Advanced Placement (Century, Glencoe, and Liberty High Schools)

Advanced Placement (AP) is a program created by the College Board, which offers college-level studies and rigorous exams to high school students. AP courses are offered at Century, Glencoe and Liberty High Schools, and subject to enrollment and staffing; however, not every course is available at each high school—Students who take the AP exam may earn credit and/or advanced placement for college. Please refer to the course descriptions in this catalog to see whether an AP course is right for you and your post-high school plans. Students are responsible for verifying college credit eligibility with each post-secondary institution based on their post-secondary plan. AP courses are offered at high schools as follows:

Course	Century	Glencoe	HOA	Liberty
AP African American Studies	Y			
AP Art History		Y		
AP Biology	Y	Y	Y	Y
AP Calculus AB	Y	Y		Y
AP Calculus BC		Y		Y

International Baccalaureate Program (Hillsboro High School)

The International Baccalaureate (IB) Diploma Programme is offered only at Hillsboro High School. IB is an internationally-recognized program which offers students an opportunity to experience a rigorous, interdisciplinary course of study in grades 11-12. This program is recognized as the finest college-preparatory program offered to students.

The common philosophy of IB World Schools is to deliver a rigorous educational experience that helps students develop the skills necessary to excel in an increasingly competitive, global society. The IB Programme places the student at the center of the educational experience and seeks to develop thoughtful students who strive to be:

- Inquirers
- Caring
- Thinkers
- Balanced
- Principled
- Open-minded
- Knowledgeable
- Risk-takers
- Communicators
- Reflective

International Baccalaureate Diploma Programme

All IB courses are open to all Hilhi students, whether or not students choose to pursue the IB Diploma. If a student chooses to pursue the IB Diploma or the Honors CCP, please see the IB Coordinator and appropriate counselor to ensure that the requirements are known and understood. Students may choose to complete the IB Diploma or individual courses. The IB courses offered at Hilhi are represented in the graphic.

- **HL** = higher level two-year course
- **SL** = standard level one-year course
- **SL*** = standard level two-year course

CURRICULUM: The IB Diploma requires students to complete advanced, college-level courses in six curriculum areas, including English language arts, language acquisition, social studies, mathematics, experimental science, and arts/electives. At least three, but not more than four, courses are taken at Higher Level (HL) and the others at Standard Level (SL). In addition, students complete the Theory of Knowledge (TOK) course. **EXTENDED ESSAY:** IB Diploma students write an approximately 4,000-word essay on a topic of interest. The completion of this essay is supported by the IB Coordinator and staff advisors.

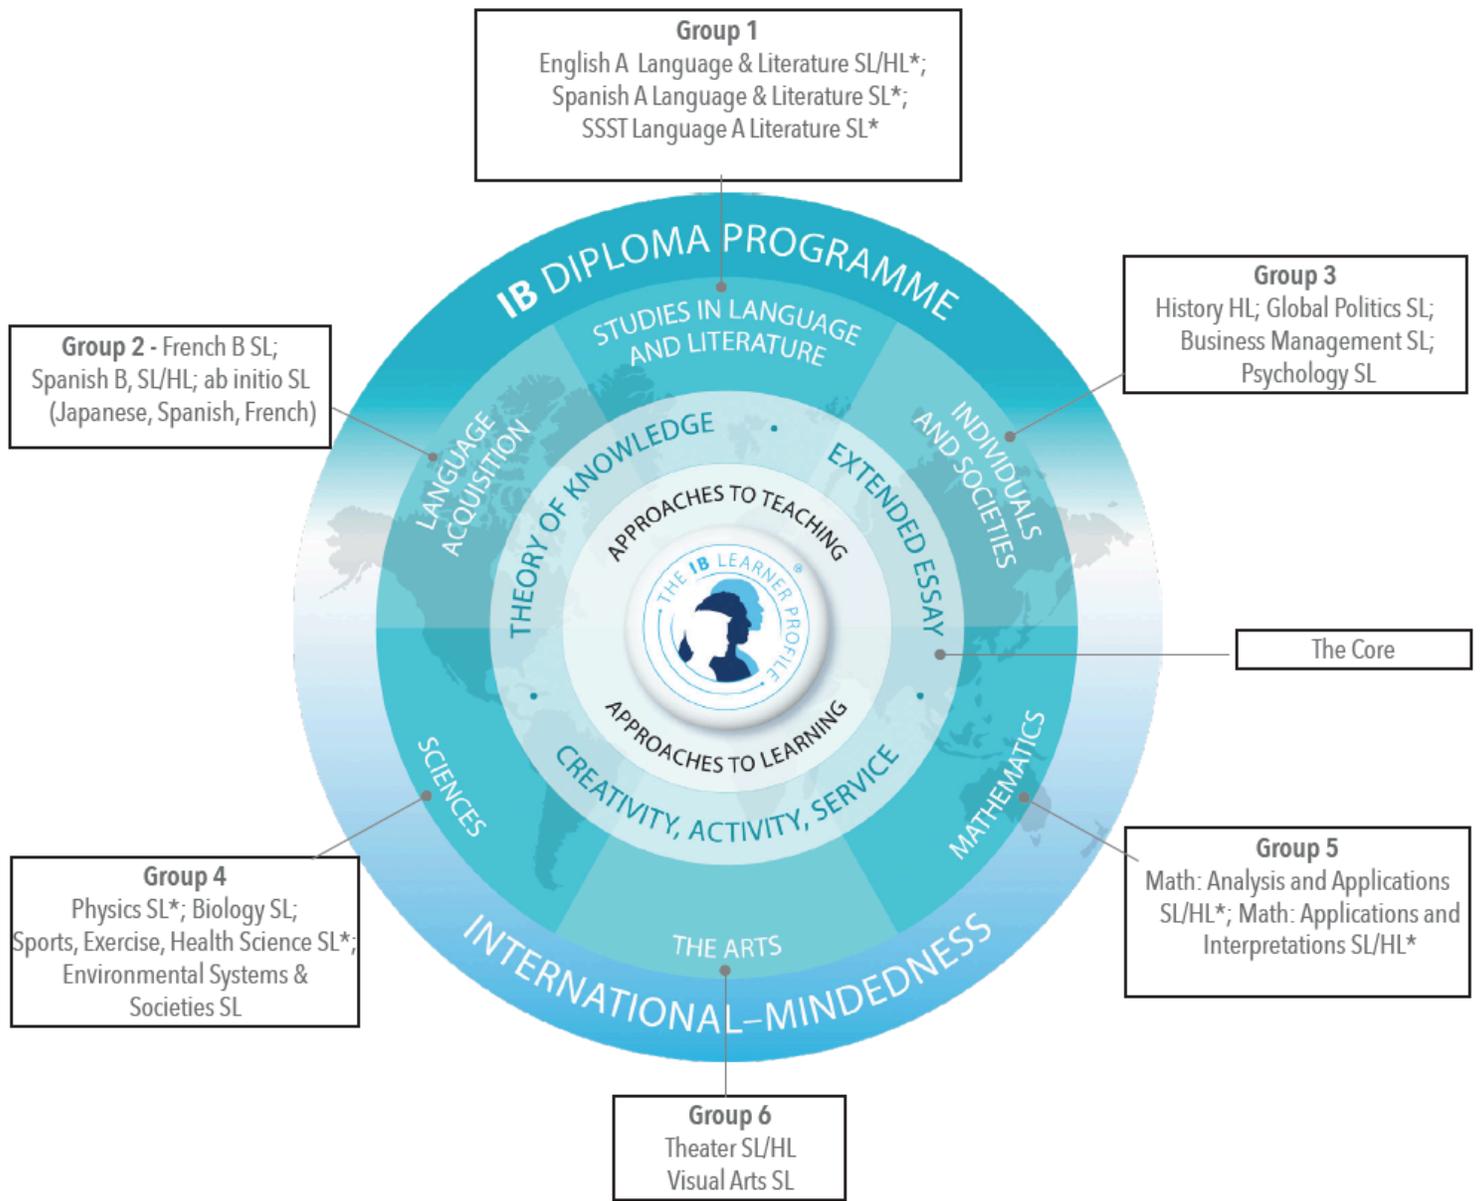

CREATIVITY, ACTIVITY & SERVICE (CAS): IB Diploma and Honors CCP students complete service-learning experiences over the course of their junior and senior years, culminating in a four - six week CAS Project.

DIPLOMA PROGRAM: The International Baccalaureate Diploma Program (IB DP) is a rigorous pre-university course of study that meets the needs of highly motivated students. It is open to any interested student on campus. Designed as a comprehensive two-year curriculum, the Diploma Program challenges students to develop strong reading, writing, and analytical skills across the curriculum that will serve them well at the university level. This program also prepares students for the world after high school by emphasizing curriculum that is taught globally. Students who complete IB courses may choose to take examinations which may lead to college credit.

Students at Hilhi can participate in IB by taking one or more IB courses, or by choosing one of the following options:

IB DIPLOMA: Students will take and test in six IB DP courses (three SL and three HL) across content areas, complete TOK 1 and 2, the Extended Essay, and CAS.

HONORS CCP (meets senior project requirement and earns honor cord at graduation): Students will take a minimum of three IB courses, complete Theory of Knowledge (TOK) 1 and 2, and fulfill CAS requirements.

Dual Credit Opportunities

Dual credit is the opportunity for high school students to earn college credit while still in high school. A qualified instructor provides rigorous content aligned with college coursework through regional post-secondary institutions and partnerships such as Central Oregon Community College,

Oregon Institute of Technology, Portland Community College, Portland State University, Western Oregon University, and Willamette Promise. Upon completion of the course, students can earn both high school credit as well as college credit that is reflected in a transcript from the post-secondary institution.

Because of the nature of post-secondary partnership agreements, qualifications of instructors, and staffing, in some circumstances we might not be able to offer dual credit aligned with high school courses. It should be known that when students enroll in a high school dual credit-articulated course, it is not guaranteed they will receive college credit.

Current dual credit opportunities are shown on the following pages. Please contact your instructor for dual credit requirements for each course.

Students who elect to take dual credit should consider how the course will align with their post-secondary goals. Students should look for credits that fit into the degree or certificate pathways that interest them. Unsatisfactory and/or failing grades can have a negative impact on a student's financial aid opportunities and potential OSAA eligibility. Additionally, credits earned in high school count toward the 90 credit maximum for the Oregon Promise grant. Students enrolled in dual credit are protected by The Family Educational Rights and Privacy Act (FERPA). Due to this, parents/guardians will not have access to student specific information including enrollment, grading, and transcript information. Evidence of college credit will not be reflected on the high school transcript. Records of college credits earned may be obtained by contacting the registrar's office at the individual post-secondary institution. Students and parents/guardians should talk about the benefits and potential costs of enrolling in college level courses.

Career & College Pathways

Career & College Pathways (CCP) Program

Aware, Eligible and Prepared

Graduation may seem far away, but it is never too early to get on the right track. Through the Career and College Pathways (CCP) program, Hillsboro School District is committed to ensuring all students are aware of their career and college options, eligible for those options, and prepared for success in their post-secondary choices.

Becoming aware involves early exposure to careers and colleges, interest mapping, guidance lessons, and the completion of national standardized tests. In addition, students need to understand high school graduation requirements and the requirements for entering certain vocations, two-year community colleges, four-year public and private colleges, and even the military.

Becoming eligible involves students completing the necessary steps to engage in the post-secondary option of their choosing. This includes meeting the requirements of college entrance, developing a plan that details the steps needed to reach their future goal, planning for how to pay college tuition or support themselves with gainful employment, and applying to at least one post-secondary institution or job consistent with application requirements and deadlines.

Becoming prepared involves not only learning academic subjects, but also the development of “habits of mind” that lead to success in post-secondary learning or employment. Students will need to have foundational understanding in a wide array of disciplines, study and work habits necessary for school and workplace performance, and a pattern of life skills that will ensure readiness for independent living.

Career Development Credit

The School-to-Career Specialist grants the 0.5 credit in career development required for graduation. This is not a course students take, but rather a list of activities students complete through Xello, career-related learning experiences, and counselor guidance. Xello is a web-based resource that encourages and supports post-high school career and college planning. The annual Xello and counselor guidance activities include:

- **9th Grade Year:** Career and College Xello Lesson
- **10th Grade Year:** Career and College Xello Lesson
- **11th Grade Year:** Career-Related Learning Experience Resume
- **12th Grade Year:** Senior Exit Survey

All HSD high schools are members of the Western Washington County School-to-Career Consortium, which is operated through the Hillsboro Chamber of Commerce. Students have access to career-related learning experiences (CRLE) with businesses in the tri-county area. Career-related learning experiences provide opportunities for students to connect classroom learning with life experiences in the community, workplace, or school. School-to-career opportunities are coordinated through the career and college centers at each of the high schools.

5 Key Indicators for career and college readiness

- ACT and SAT testing taken by beginning of 12th grade
- Completion of 3+ College Level Opportunity courses by graduation (AP, IB, dual credit)
- Completion of a Career and College Pathway course sequence by graduation
- Participation in one or more work-based learning opportunities by graduation
- Completing the Free Application for Federal Student Aid (FAFSA) and/or the Oregon Student Aid Application for college in 12th grade

hsd.k12.or.us/ccp

CPP Coursework

What is a Career and College Pathway?

High school is an important part of a student's preparation for life, a time of transitions to post-secondary education, careers and adult responsibilities. Career and College Pathways can help students to clarify their career and college goals and to select courses that match their goals.

Related level courses are suggested additional courses within the same CCP or a related CCP. Students interested in exploring beyond the required courses are encouraged to consider courses in the related column. Required classes provide a fundamental understanding of each area of study. Capstone courses provide an opportunity for students to extend their knowledge and pursue their individual interests. Students will complete a senior project in a capstone course.

CCP career learning areas available are:

- Advanced Manufacturing
- Agriculture
- Arts, Entertainment, & Design
- Construction
- Digital Technology
- Education
- Financial Services
- Healthcare & Human Services
- Hospitality, Events, & Tourism
- Marketing & Sales, Management & Entrepreneurship
- Public Service & Safety
- Supply Chain & Transportation

Why enroll in a CCP?

Each student will be able to:

- Pursue personal, academic and career interests
- Establish post-high school goals
- Actively engage in educational planning and take responsibility for learning
- Apply high-level academic and career-related knowledge and skills in relevant and meaningful learning experiences
- Receive support from school, parents and the community.

How will I earn a CCP Cord at graduation?

To earn a CCP graduation cord, students will need to:

- Pass required foundation and advanced application courses with a B or better
- Complete program-specific requirements which may include service learning and/or an internship
- Complete a senior project/portfolio as required in the CCP, through the capstone course.

Additional Information About CCP

Information about Career and College Pathways, including information about CCP shuttle accessible pathways, work-based learning opportunities, course selection resources, and more is available on the District website: www.hsd.k12.or.us/ccp.

Xello Career Development Requirements

xello
Career Development Requirements

As part of Hillsboro School District's 6-Year Education Plan & Profile activities, students will complete various Xello activities at each grade level. The activities listed in **bold** are mandatory and must be completed by students to fulfill the HSD graduation requirement of earning a 0.5 Career Development credit. The completion of this 0.5 Career Development credit is monitored and awarded by the School to Career Specialist at each high school.

Prepared for Career, College & Life

PORTRAIT OF A HILLSBORO SCHOOL DISTRICT GRADUATE

Prepared for Career, College & Life

The Hillsboro Portrait of a Graduate embodies our commitment to know, value and support every student. We will nurture each student's growth on their journey to career, college and life readiness.

Additional Information & Resources

Academic & Activity Fees

It is the philosophy of Hillsboro School District that no student be denied the opportunity to participate in any phase of the curriculum because of financial hardship. The district will provide necessary materials free of charge to any student whose parents indicate that the costs entailed would represent a financial hardship to the family.

Arrangements should be worked out through the school's bookkeeper, rather than the teacher or coach whose class or activity is involved

Required Fees	CHS, GHS, HHS, LHS
ASB <i>(required for students involved in a school-sanctioned activity/ sport)</i>	\$20
Activity fee* <ul style="list-style-type: none">• Band - marching• Cheerleading• Color guard• Dance team	\$150*
Athletic participation fee*	\$200*
AP Exam Fees	Students do not have to register for AP exams to take AP courses, however if they do choose to take an exam there is an associated fee.
IB Exam Fees	Student do not have to register for the exams to take the IB courses, however, IB exam fees are waived for all Hillsboro High School students due to the school's participation in the Community Eligibility Provision (CEP)
Parking permit	\$30 per year, fees for additional stickers
Yearbook	Varies

* per student per sport/activity, up to a maximum of \$400 per student; maximum \$800 per family for level 1 sports. Level 1 sports include football, soccer, cross country, volleyball, swimming, basketball, wrestling, baseball, softball, and track and field. Level 2 and club sports fees may vary by school and do not count toward the cap. Please see your school's athletic secretary for more information.

Some courses are costly to offer due to materials required. If you would like to make a voluntary contribution to any of our classes, please see the school's bookkeeper.

Course Planning

HSD high schools use the online platform, Xello, to assist students in creating their four-year high school plans. As a guidance tool prior to the course selection process, students build their own course plans in order to create a sense of ownership over their paths through high school, and to ensure they are working toward meeting their post-secondary goals. Counselors and families can view student plans and provide informed suggestions and encouragement. This allows families to take a larger role in their student's future planning process.

Login Information

Students can access Xello through MyApps which is accessed using their district username and password

More information about Xello itself can be found at <https://xello.world/en/middle-and-high-school/>

Century School-Based Health Center

Adolescents are reported to have the lowest access to health care of any age group and they are the least likely to seek care through a traditional doctor's office. The goal of the School-Based Health Center (SBHC) is to serve student health needs by providing a quality comprehensive health care facility located conveniently at Century High School that is open to all students and employees of the Hillsboro School District!

Located on the Century HS Campus:
1998 SE Century Blvd Hillsboro, OR 97123
Hours: M-F: 8:00 – 4:30 (closed 12:00 – 12:30 for lunch)
More Info & Scheduling: 503-597-4580

Questions & Answers

Are there licensed medical providers on staff?

Absolutely, the SBHC has a licensed Nurse Practitioner or Physician Assistant and a Mental Health Therapist on staff, plus a certified Drug & Alcohol counselor.

What about insurance?

The SBHC can bill most private health insurance plans and may collect a co-pay at the time of your visit. Oregon Health Plan (OHP) is also accepted, which does not require a co-pay. Contact your SBHC to see if they can take your insurance. No insurance? No problem. The SBHC will assess if you are eligible for a discounted fee, based on income. Families that earn less will pay less. No one will be turned away for their inability to pay.

Do I need an appointment?

Appointments are preferred, but if you have an urgent need, you can walk in. To make an appointment simply call the SBHC to schedule, or walk in and request a visit.

Is my appointment confidential?

Your privacy and safety are a priority at the SBHC. In general, adolescents have a right to privacy regarding some health information. If there is a safety concern, we are required to report by law. SBHC staff work with youth of all ages to involve parents/guardians in their care. If you have any questions about the confidentiality of your care, please ask our knowledgeable staff.

Some of the services you can access at the SBHC are:

- Physical exams
- Sports physicals
- Immunizations
- Urgent care
- Diagnosis and treatment of acute and chronic illness
- Specialist referrals
- Mental health therapy
- Substance abuse screenings
- IEP support
- LGBTQ+ safe zone

Pathways

Advanced Manufacturing

The Advanced Manufacturing Career Cluster blends innovative technologies and practices to enhance design and production. It covers areas such as engineering, research and development, automation and artificial intelligence, equipment maintenance, safety protocols, and quality control. This Cluster aims to increase efficiency, reduce waste, ensure safety, and produce high-quality goods, driving the industry's growth and adapting to modern demands.

Digital Technology

The Digital Technology Career Cluster focuses on developing digital systems for communication and data storage using critical technologies such as artificial intelligence (AI), data analytics, and cybersecurity. This Cluster builds skills necessary for all careers to navigate and lead in the constantly evolving tech landscape and drives innovation across all industries to tackle complex challenges and opportunities in communities and economies.

This Career Cluster is also a Cross-Cutting Cluster as the skills gained through this Career Clusters area are applicable across all Career Clusters.

Computer Science Pathway

High School	Liberty High School
Sub-Cluster	Software Solutions

Required

Grade(s)	Course	Credits
10, 11, 12	Programming 1	1.0
11, 12	AP Computer Science A	1.0
10, 11, 12	AP Computer Science Principles	1.0

Marketing, Sales, Management, & Entrepreneurship

The Marketing & Sales Career Cluster focuses on promoting products, understanding consumer needs, engaging with communities, and driving sales. It integrates digital marketing, data analysis, brand promotion, customer relationship management, strategic communications, human-centered design, and retail strategies to build strong customer connections and support business growth. This Cluster is essential in all industries for creating value, effectively reaching and engaging target audiences, and achieving commercial success in a competitive marketplace.

The Management & Entrepreneurship Career Cluster involves skills and occupations that are essential across all industries, focusing on business administration, operations optimization, strategic planning, workforce management, and entrepreneurship. It merges key areas such as data management and analysis, human resources, general operations, administrative support, project management, and organizational leadership. This Cluster ensures that businesses across all industries efficiently meet their goals, adapt to market changes, and maintain competitive advantage. By emphasizing entrepreneurship, this Cluster supports the creation of new ventures, driving economic growth and innovation and making it a cornerstone of modern economies.

These Career Clusters are also Cross-Cutting Clusters as the skills gained through these Career Clusters are applicable across all Career Clusters.

Capstone

Grade(s)	Course	Credits
11, 12	Automotive Technology 5	1.0

Language Arts

Students are required to take four credits of Language Arts. For those who intend to attend college, advanced courses in language arts are highly recommended to prepare for the rigor of college-level writing. College credit and/or placement beyond introductory coursework may be obtained by successfully completing and testing in an Advanced Placement English course (refer to your college’s catalog to determine the test scores that may qualify for college credit).

IB courses are offered at Hilhi only.

Mathematics

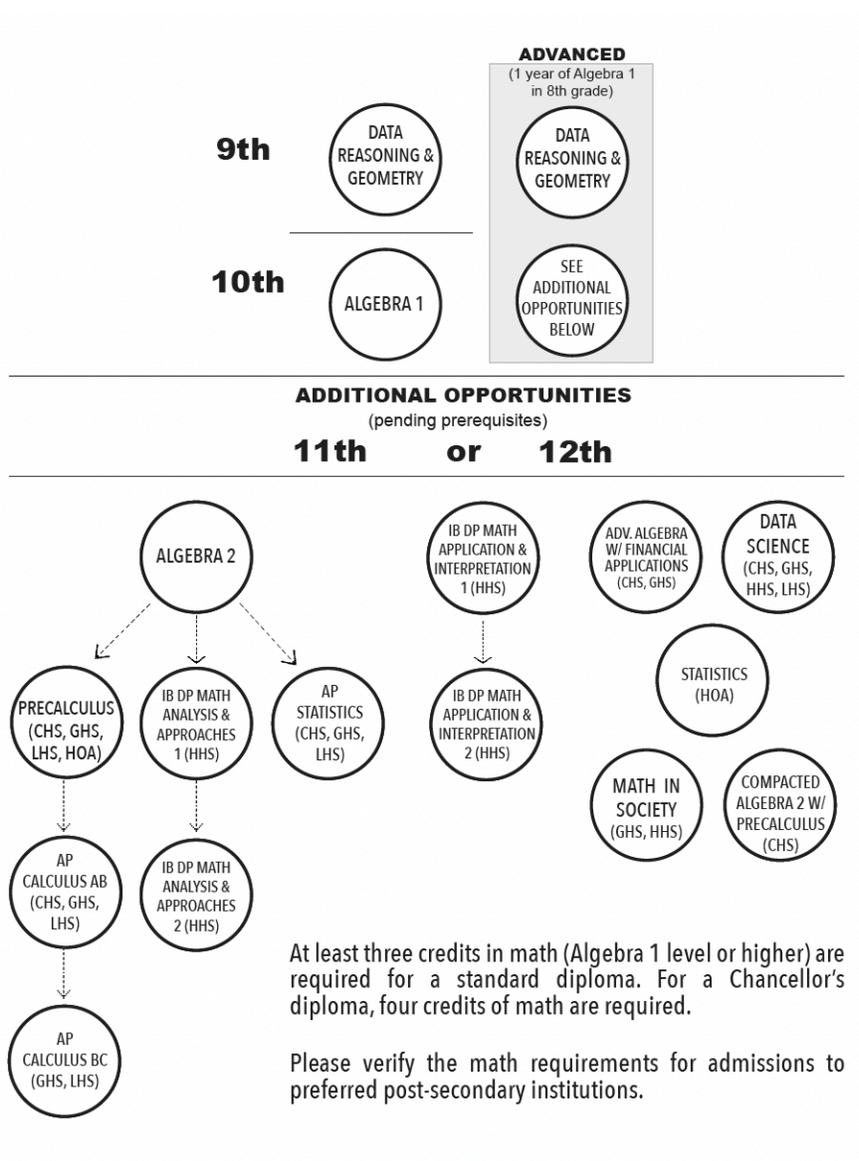

Every student must earn three or more math credits (Algebra 1 level or higher) to graduate and be college-eligible. As of Fall 2024 Oregon public universities no longer require Algebra 2 for admissions. All additional credit opportunities (as listed) satisfy admissions to Oregon public colleges and universities. However, requirements for private, out of state, and specific programs may have other requirements. Please verify with post-secondary institutions for their specific requirements.

There are multiple pathways available to students based on their post-high school plans. For those intending to attend college, advanced courses are highly recommended to prepare for the rigor of college mathematics.

Most math courses have recommended prerequisites to guide appropriate course selection. Students are advised to discuss their math options with their teacher or counselor to select the course(s) and paths that best fit their individual education goals and plans. College credit may be earned by taking AP or IB courses.

IB courses are offered at Hilhi only.

Courses

Academic Options - Liberty High School

Academic Options provides an opportunity for students to recover credit for a failed course that is required for graduation. This course uses an online learning program as a tool for individualized instruction to recoup learning standards not mastered in the original class. This program also offers academic support for students in their current course load outside of Academic Options.

Career Cluster	Additional Educational Opportunities
Grade(s)	9,10,11,12
Prerequisites	Counselor recommendation

Adv. Graphic Arts Studio - Liberty High School

Advanced Graphic Arts Studio is the capstone course for the Graphic Arts pathway. This course will focus on advancing skills from graphic design 1- 3 while students collaborate on projects with real life clients. Students will build a portfolio of work and a resume that will allow them to apply to jobs directly post graduation. Students will establish mentorships with industry professional. Students will work with groups in the community to connect with real life clients who have projects they want to create. Students will use the design process while meeting with their clients, determining their client needs and then creating designs for them. They will receive feedback about their designs and make revisions to satisfy the clients needs.

Career Cluster	Visual Arts
Credits	1.00
Grade(s)	12

Advanced Culinary Arts/SP - Liberty High School

This class is the final course of the Culinary Arts and Hospitality pathway and for the required Senior Capstone Project. The curriculum is based on the requisite skills to run a successful restaurant and catering business. Our assignments work with satisfying real customers and give students valuable feedback on their knowledge and skills. Topics include marketing, menu design and management, controlling fixed and variable costs, and HR skills.

The Senior Project allows students to differentiate their area of research to delve deeper into topics they feel are most impactful to them. These are proudly presented at the end of the year at the senior exhibition night.

Career Cluster	Culinary Arts and Hospitality
Credits	2.00
Grade(s)	12
Prerequisites	Intro to Culinary Arts, Gourmet Foods & Hospitality, Advanced Culinary Arts

Advanced Strength Training - Liberty High School

This course is a continuation of the Strength Training and Conditioning class. The Advanced class focuses on functional strength training movements and exercises for those students who want to improve their lateral and linear speed, jumping ability, strength, flexibility, and overall explosiveness.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	9,10,11,12
Prerequisites	Completion of Strength Training & Conditioning; teacher approval for 9th-grade students

Aerobics/Fitness for Life - Liberty High School

This course is recommended to students who want to learn a variety of ways to exercise. This class teaches lifelong fitness through a variety of exercises including but not limited to circuit and aerobic training, introduction to weight training, Tae-bo, Pilates, Yoga, stress management/relaxation, and recreational games. This course will teach students how to assess their fitness, establish goals, and prescribe an exercise plan to reach their fitness goals by using training principles in all components of fitness.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	10,11,12

Sustainable Agriculture 1 - Liberty High School

This class is focused on learning essential gardening and farming methods that do not harm the soil, air, or water for future generations. Students will plan, plant, compost, save seeds, use garden tools/ equipment and develop a variety of growing techniques in the school garden. In addition, students will investigate factors that affect plant health, growth, and reproduction by designing and conducting experiments in the garden. Students will use prior knowledge, new know-ledge, and experience in the class to think critically about how our current food system operates to develop real solutions to change social and environmental problems.

Career Cluster	Agriculture
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Introduction to Horticulture or Discovering Natural Resources

Sustainable Agriculture 2 - Liberty High School

This class is the capstone course for the sustainable agriculture program of study. Students will complete their senior project and manage the Falcon Farm. Students will demonstrate their knowledge of the three main goals of sustainable agriculture: environmental health, economic profitability, and social and economic equity.

Career Cluster	Agriculture
Credits	1.00
Grade(s)	11,12
Prerequisites	Sustainable Agriculture 1

Algebra 1 - Liberty High School

The fundamental purpose of this course is to formalize and extend the algebraic learning that started in the middle grades. Students will apply the Mathematical Practice Standards alongside the Oregon State High School Math Standards (2021) in meaningful ways so they see math as a coherent, useful, and logical subject that can support their development of critical thinking and problem solving skill sets. The content presented will primarily include exponential and quadratic function families, in addition to a review of linear functions and how they compare to other functions. Core areas of curricular focus include applying appropriate algebraic techniques, modeling, analyzing graphs and functions, and analyzing linear, exponential, and polynomial (quadratic) function families.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	10
Prerequisites	Data Reasoning & Geometry

Algebra 2 - Liberty High School

Building on their work with linear, quadratic, and exponential functions, students extend their repertoire of functions to include polynomial, rational, and radical functions. Students work closely with the expressions that define the functions, and continue to expand and hone their abilities to model situations and to solve equations, including solving quadratic equations over the set of complex numbers and solving exponential equations using the properties of logarithms. The three critical areas of focus are: polynomial, rational and radical relationships; modeling with functions; and inferences and conclusions from data. The Mathematical Practice Standards apply throughout the course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. A scientific calculator is strongly recommended.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Algebra 1 + Data Reasoning & Geometry

Human Anatomy & Physiology - Liberty High School

Anatomy and Physiology is a lab-based study of human structure and function. It is designed for students interested in medical, health, or fitness related careers. The anatomy and physiology of each system is explored through labs, dissections, case studies, and other activities.

Career Cluster	Healthcare & Human Services
Credits	1.00
Grade(s)	11

AP Studio Art - 2D or 3D - Liberty High School

The AP Studio Art Program consists of three portfolio exams: 2-D Design, 3-D Design, and Drawing corresponding to the college foundation courses. Portfolios allow flexibility of coursework while guiding students to produce college-level quality, artistic investigation, and breadth of work. Students' portfolios demonstrate skills and ideas developed, refined, and applied throughout the course to produce visual compositions. Students may choose to submit any or all of the portfolios. Portfolios are evaluated based on standardized scoring descriptors aligned with skills and understanding developed in college foundation courses.

Career Cluster	Visual Arts
Credits	1.00
Grade(s)	12
Prerequisites	Art 3

AP Biology - Liberty High School

AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes energy and communication, genetics, information transfer, ecology, and interactions.

Career Cluster	Biological Sciences
Credits	1.00
Grade(s)	11,12
Prerequisites	Biology, Chemistry

AP Calculus AB - Liberty High School

AP Calculus is devoted to topics in differential and integral calculus. The AP course covers topics in these areas, including concepts and skills of limits, derivatives, definite integrals, and the Fundamental Theorem of Calculus. The course teaches students to approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections amongst these representations. Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Pre-Calculus

AP Calculus BC - Liberty High School

In this rigorous college-level course, students will advance their understanding of calculus by learning and applying concepts and functions graphically, numerically, analytically, and verbally. The course requirements established by The College Board will all be followed, with the ultimate goal being both success on the BC Calculus AP exam as well as a deeper and more enduring understanding of calculus. Topics of this course will include: functions, graphs, and limits; derivatives; integrals; calculus with parametric equations, polar equations, conic sections, and vectors; and polynomial approximations and series. Calculus 1 (AP Calculus AB) are reviewed and enriched, and AP Calculus BC-specific topics are fully covered by this course. A graphing calculator is required.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	11,12
Prerequisites	AP Calculus AB or Pre-Calculus with teacher approval

AP Chemistry - Liberty High School

The AP Chemistry course provides students with a college-level foundation to support future advanced coursework in chemistry. Students cultivate their understanding of chemistry through inquiry-based investigations, as they explore topics such as: atomic structure, intermolecular forces and bonding, chemical reactions, kinetics, thermodynamics, and equilibrium. Created by the AP Chemistry Development Committee, the course curriculum is compatible with many chemistry courses in colleges and universities.

Career Cluster	Chemistry
Credits	1.00
Grade(s)	11,12
Prerequisites	Chemistry and Algebra 2 recommended

AP Computer Science A - Liberty High School

The AP Computer Science A course is equivalent to a first-semester, college-level course in computer science. The course introduces students to computer science with fundamental topics that include problem-solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes object-oriented and imperative problem-solving and design using the Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems.

Career Cluster	Computing
Credits	1.00
Grade(s)	11,12
Prerequisites	Programming 1

AP Computer Science Principles - Liberty High School

AP Computer Science Principles offers a multidisciplinary approach to teaching the underlying principles of computation. The course will introduce students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity concerns, and computing impacts. AP Computer Science Principles also gives students the opportunity to use current technologies to create computational artifacts for both self-expression and problem solving. Together, these aspects of the course make up a rigorous and rich curriculum that aims to broaden participation in computer science.

Career Cluster	Computing
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Web Design 1, Creative Computing, or Applied Computing

AP English Language & Composition - Liberty High School

The AP English Language and Composition course aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in nonfiction texts, including graphic images as forms of text, from many disciplines and historical periods.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	11,12

AP English Literature & Composition - Liberty High School

The AP English Literature and Composition course aligns to an introductory college-level literary analysis course. The course engages students in the close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. As they read, students consider a works structure, style, and themes, as well as its use of figurative language, imagery, symbolism, and tone. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	11,12

AP Statistics - Liberty High School

The course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. There are four themes in the AP Statistics course: exploring data, sampling and experimentation, anticipating patterns, and statistical inference. Students use technology, investigations, problem solving, and writing as they build conceptual understanding. A Texas Instruments graphing calculator is required.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	11,12
Prerequisites	Algebra 2 or Data Science

AP Physics 1 - Liberty High School

AP Physics is an algebra-based, introductory college-level physics course. Students cultivate their understanding of Physics through inquiry-based investigations as they explore topics such as Newtonian mechanics (including rotational motion); work, energy, power; and fluids.

Career Cluster	Physics
Credits	1.00
Grade(s)	11,12
Prerequisites	Algebra 2 recommended

AP Physics C (Mechanics, Optional: Electricity & Magnetism) -

Liberty High School

This course is designed to provide a firm foundation in physics for students intending to emphasize science and engineering in their college or university education. The topics of mechanics, electricity, and magnetism will be studied in-depth. Laboratory work combines experimental work with mathematical analysis and technical writing. Laboratory experiments are used to both justify and verify mathematical relationships of physical laws. Calculus is utilized throughout the course to explain the workings of the physical universe. The course covers the skills and knowledge for the AP Physics: Mechanics test and the AP Physics: Electricity & Magnetism test.

Career Cluster	Physics
Credits	1.00
Grade(s)	11,12
Prerequisites	Pre-Calculus

AP Human Geography - Liberty High School

The AP Human Geography course is equivalent to an introductory college-level course in human geography. The course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. The curriculum reflects the goals of the National Geography Standards (2012).

Career Cluster	Social Science
Credits	1.00
Grade(s)	10,11,12

AP U.S. Government - Liberty High School

This is a highly-advanced course for accelerated college-bound seniors. The course will explore in depth the institutions, people, and laws that make up the American government. Specific topics will include the three branches of government, political ideology, voting and voting behavior, campaigns, the role that the media plays in a democratic society, and the government's role in the U.S. economy. Extensive reading from a college text and selected historic works will be required. Outside research and writing will be ongoing. Expect thorough discussions, detailed analysis, and complete examination of the U.S. Government from a historical and contemporary point of view. Students who pass the AP exam may receive college credit for the course. The entire course must be completed to receive credit for the People and Politics graduation requirement.

Career Cluster	Social Science
Credits	1.00
Grade(s)	12

AP U.S. History - Liberty High School

The AP U.S. History course focuses on developing students' understanding of American history from approximately 1491 to the present. The course has students investigate the content of U.S. history for significant events, individuals, developments, and processes in nine historical periods, and develop and use the same thinking skills and methods employed by historians when they study the past. The course offers six historical thinking skills and three reasoning processes to guide students to make connections from past to present in preparation for the AP exam.

Career Cluster	Social Science
Credits	1.00
Grade(s)	11,12

AP Spanish Language - Liberty High School

This course is designed to provide authentic real-world application of the Spanish language through speaking, reading, writing, and listening. Students completing this course will have the opportunity to take the Advanced Placement exam in May.

Career Cluster	World Languages
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Spanish 4, placement test

AP Music Theory - Liberty High School

This class is for experienced musicians who are interested in a more in-depth study of music theory, and ear training history. Advanced music knowledge will be developed through classroom lecture, individual projects, and computer technology. Students will compose, arrange, or transcribe a piece of music in the fall. Students will be prepared to take the AP Music Theory exam in the spring.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	11,12

AP Psychology - Liberty High School

The AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, student employ psychological research methods, including ethical considerations, as they use the scientific method, analyze bias, evaluate claims and evidence, and effectively communicate ideas.

Career Cluster	Social Science
Credits	1.00
Grade(s)	10,11,12

AP Seminar - Liberty High School

AP Seminar is a foundational course that engages students in cross-curricular discussions of complex academic and real-world issues through the analysis of diverse perspectives. Using an inquiry-based framework, students examine a range of sources—including articles, research studies, speeches, media, and artistic works—and learn to synthesize information effectively. Students develop and communicate their own perspectives through written essays and oral and visual presentations, both individually and in teams. The course ultimately equips students to analyze and evaluate information with precision and to craft evidence-based arguments.

Support for Organizing and Studying - All Schools

This course is designed to teach and develop access skills needed for general education success. These may include but are not limited to: organization, note-taking, test preparation, academic discourse, critical thinking, close reading, self-advocacy, vocabulary development, interpersonal communication, and academic writing.

Career Cluster	Student Services
Credits	1.00
Grade(s)	9,10,11,12

Math Support: Algebra 1 - All Schools

This course is designed as a support class to be taken concurrently with Algebra I. The syllabus will be aligned with the concurrent Algebra I course. It will provide additional direct instruction and guided practice with math concepts. Study skills relevant to math will be taught.

Career Cluster	Student Services
Credits	1.00
Grade(s)	9,10

Math Support: Algebra 2 - All Schools

This course is designed as a support class to be taken concurrently with an Algebra 2 course. The syllabus will be aligned with the concurrent Algebra 2 course. It will provide additional direct instruction and guided practice with math concepts. Study skills relevant to math will be taught.

Career Cluster	Student Services
Credits	1.00
Grade(s)	11,12

Math Support: Data Reasoning & Geometry - All Schools

This course is designed as a support class to be taken concurrently with Data Reasoning & Geometry. The syllabus will be aligned with the concurrent Data Reasoning & Geometry course. It will provide additional direct instruction and guided practice with math concepts. Study skills relevant to math will be taught.

Career Cluster	Student Services
Credits	1.00
Grade(s)	9,10,11,12

Functional Academics - All Schools

This course is designed to teach foundational language arts and math skills to students.

Career Cluster	Student Services
Credits	0.50
Grade(s)	9,10,11,12

Art 1 - Liberty High School

Art 1 is an exploratory course intended to build foundational skills in visual art-making and design. Students will develop technical art-making skills through guided experimentation, practice, and revision. Students will learn and apply key design concepts and language to evaluate artwork and to enhance their compositions.

Career Cluster	Visual Arts
Credits	0.50
Grade(s)	9,10,11,12

Art 2 - Liberty High School

Building upon the skills established in Art 1, this intermediate course further develops students' technical skills and design sense. Students will work with new media not covered in Art 1, as well as more challenging processes with familiar media. Students will continue to apply design concepts to evaluate artwork, and will be supported in making connections between artistic ideas and societal, cultural, and historical contexts.

Career Cluster	Visual Arts
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Art 1

Art 3 - Liberty High School

This advanced-level course develops students' independence and personal voice as artists. Students will explore how artists develop themes in their work, and make connections between ideas, materials, and processes within societal, cultural, and historical contexts. Using the technical and design skills developed in Art 1 and 2, Art 3 students will create artworks that express their unique points of view.

Career Cluster	Visual Arts
Credits	1.00
Grade(s)	11,12
Prerequisites	Art 2

English Language Arts 10 - Liberty High School

This course is a study of literature, both classical and contemporary. It builds upon the reading, analysis, critical thinking, listening, speaking, and writing skills taught in English Language Arts 9. Standards-based instruction and assessment will continue to develop students' ability to compare and contrast informational and literary text, and increase their competence with academic research, in order to support a claim or craft a high-level response in different written genres. Academic language and vocabulary is embedded in instruction and formative assessments. Summative assessments are based on the ability to apply this knowledge.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	10

English Language Arts 11 - Liberty High School

Building on analysis, critical thinking, speaking, listening, and writing skills, students will continue to make evidence-based claims while comparing multiple pieces of literary, informational, and historical text. Attention will be given to author purpose and the strategies authors employ in their writing. Students will apply this understanding, in multiple genres, to demonstrate how a writer's style contributes to the effectiveness of a selection. Argumentative, expository, and research writing are key instructional areas which will prepare students for college-level writing requirements. Students will be expected to achieve proficiency levels in 11th grade reading and writing standards which expand on the 9-10 academic standard requirements.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	11

English Language Arts 12 - Liberty High School

This course is a study of literature, contemporary nonfiction, and historical documents. Students will analyze and integrate multiple sources of information in diverse formats (including media) to make evidence-based claims. Analysis of the connection between literary style and authors purpose will be applied in multiple genres. Critical reading strategies, collaborative discussion skills, effective technology use, as well as argumentative, expository, and research writing, are tailored to create a successful bridge for students from high school to college and career.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	12

English Language Arts 9 - Liberty High School

This course is a study of language and literature that explores poetry, prose, drama short fiction, and novels. Students will analyze informational text in relation to the study of literature. Standards-based instruction and assessment in reading, vocabulary, grammar, critical thinking, speaking, listening, and literary response skills, as well as an introduction to academic research, media literacy, and the evaluation of sources, will give students the ability to structure an academic response to a variety of prompts. Academic language and vocabulary is embedded in instruction and formative assessments.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	9

Historical Issues: Ethnic Studies - Liberty High School

The Ethnic Studies course is designed to give high school students an introduction to the experiences of ethnic communities that are rarely represented in textbooks. It is also a compelling way to examine race, ethnicity, nationality, and culture in the United States. The course equips students with a critical lens to see the world and their place in it by understanding systems and power at the root of American society and has as a goal to motivate students to actively engage in our democracy. Through the Ethnic Studies course, students are supported to discover and use their own power for the benefit of not only themselves, but also that of their community and society at large.

Career Cluster	Social Science
Credits	0.50
Grade(s)	10,11,12

Historical Issues: History of Oregon - Liberty High School

Examines the rich and diverse history of Oregon including the significance of Oregon's frontier heritage and Oregon's role in American history from pre-European contact to the modern era. Explores economic, political, social, and cultural factors in terms of race, ethnicity, gender, class, and religion.

Career Cluster	Social Science
Credits	0.50
Grade(s)	10,11,12

Historical Issues: History of the Holocaust - Liberty High School

Introduces the aftermath of World War I and the rise of the Nazis, the historical roots of anti-Semitism, the evolution of the Final Solution and its coordination in Nazi-occupied Europe, the victims of Nazi policies, the camps, the perpetrators, bystanders, and the aftermath of the Holocaust.

Career Cluster	Social Science
Credits	0.50
Grade(s)	10,11,12

AVID - Liberty High School

AVID is an in-school academic support program for grades 9-12 that prepares students for four-year college and university eligibility and success. AVID targets students in the academic middle. AVID students must commit to enrollment in a rigorous college preparatory sequence of courses. Students will learn and apply study skills and learning strategies to improve performance in their other classes. Note taking, outlining, writing, speaking, reading, test strategies and self-awareness are stressed, including college research activities and SAT and ACT test preparation. Students will be coached individually and in study groups by specially trained tutors. AVID's systematic approach increases students' chance for success in four-year colleges while supporting school-wide and districtwide learning and performance goals.

Career Cluster	Additional Educational Opportunities
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Students must apply and be interviewed before being accepted to this course.

AVID Tutor - Liberty High School

The AVID tutor takes an active part in developing the academic and personal strengths of students in the AVID Elective, a college preparatory course. AVID Tutors will be trained in WICOR (writing, inquiry, collaboration, organization, reading) strategies and the ten steps of the tutorial process. Tutors will facilitate small group tutorials where they need not be experts in all subjects, but instead be active learners. Additionally, tutors will assist AVID students with Cornell notes, binder checks, tutorial requests forms, planners, and the successful completion of college eligibility requirements under the supervision of the AVID elective teacher. AVID tutors are expected to serve as positive role models and mentors to students in the AVID elective. May be repeated.

Career Cluster	Additional Educational Opportunities
Credits	0.50
Grade(s)	11,12
Prerequisites	*Students must apply and be approved before enrolling in this course.

Teacher's Aide - Liberty High School

Teacher's aides become involved in a variety of learning experiences either on campus. Students may work with and assist teachers in a variety of ways, work in counseling, attendance and administration offices, assist in the library or bookstore, and in many other capacities on the campus.

Career Cluster	Additional Educational Opportunities
Credits	0.50
Grade(s)	11,12
Prerequisites	One student aide course per semester, staff approval

Concert Band - Liberty High School

Concert Band is the non audition band class on campus. It is open to all students in all grade levels. Focus will be placed on skill development and expression through use of appropriate band repertoire. Students will also grow through multiple performance opportunities. Participation in marching band in the fall and pep band in the winter is expected from all band members.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	9,10,11,12

Symphonic Band - Liberty High School

Symphonic Band is the intermediate audition band class on campus. It is open to all students in all grade levels that pass an audition/ placement process. Focus will be placed on higher level skill development and expression through use of appropriate band repertoire. Students will also grow through multiple performance opportunities. Participation in marching band in the fall and pep band in the winter is expected from all band members.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Director approval/audition

Biology - Liberty High School

This is a lab-based Biology course (Patterns Biology) designed for 11th grade students based on the Next Generation Science Standards (NGSS). This course integrates science and engineering practices, multidisciplinary concepts and the following core ideas: 1) Biodiversity, 2) Biomolecules, 3) Cells to Organisms, 4) Genomics, 5) Evolution, and 6) Matter, Energy, and Climate Change. Throughout the course, students will focus on patterns, processes, and relationships of living systems. Interactions and interdependence of living systems will be explored through observations, investigations, models, and technology. Scientific and technical literacy is integrated throughout the course.

Career Cluster	Biological Sciences
Credits	1.00
Grade(s)	11

Broadcast Journalism - Liberty High School

In this course students will learn the foundation skills of storytelling and hybrid shooting using mirrorless cameras. Students will learn the basics of lighting, composition, and editing to create branded media that focus on stories in our community. Students will work with the Adobe Suite of products, like Photoshop, Lightroom and Premiere to edit the content they create. This course will be blocked with Digital Photography 3.

Career Cluster	Communications
Credits	0.50
Grade(s)	11,12

Business Communications - Liberty High School

No matter what career you're planning to pursue, excellent professional communication will be key to your success. Upgrade your abilities in speaking, listening, writing, using and reading body language, and communicating in teams and groups. Discover how to plan, create, and deliver business presentations and communicate through graphics. In no time, you'll be communicating with confidence, stand out from your peers, and impress your employer.

Career Cluster	Business and Marketing
Credits	0.50
Grade(s)	10,11

Business Law - Liberty High School

Explore what it means to run an ethical business, how to keep intellectual property, technology, and e-commerce safe and protected, understand insurance and taxes, and how to have a healthy workplace environment. Keep the business safe and growing by following the law. Explore the differences between criminal and civil law. Examine how state and federal regulations work to protect consumer and employees' rights, protect society and the environment, and understand how business contracts can work to protect everyone.

Career Cluster	Business and Marketing
Credits	1.00
Grade(s)	9,10,11

Foundation Choir (SATB)* - Liberty High School

All students are welcome to register for this choir class. Emphasis is placed on teamwork and developing basic skills in vocal technique, sight reading, and music theory. A wide variety of choral music is studied and performed at required concerts, festivals, and special performances throughout the school year.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	9,10,11,12

Social Communication Center - All Schools

The Social Communication Center (SCC) is intended to provide a higher level of support than can typically be accomplished within a general education classroom in a sustainable manner. The goal of the program is to help students develop a deeper understanding of social relationships and social communication rules. Students will also understand more of their emotional and sensory needs, while accessing the core curriculum and general education setting to the maximum extent possible. Students who experience disabilities may need more assistance to become socially competent through direct instruction on how the social world works, and why specific skills are important in different contexts.

Career Cluster	Student Services
Credits	0.50
Grade(s)	9,10,11,12

Ceramics 1 - Liberty High School

This course is designed to introduce students to the tools and techniques used when working with clay through hand building. Students will learn techniques including scoring and slipping, slab building, and coil making. A focus on design is used to guide students through principles of form moving through space.

Career Cluster	Visual Arts
Credits	0.50
Grade(s)	9,10,11,12

Ceramics 2 - Liberty High School

Building upon the techniques taught in Ceramics 1, this second year focuses on a more detailed examination of ceramic design and concept.

Career Cluster	Visual Arts
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Ceramics 1

Ceramics 3 - Liberty High School

Building on the techniques and skills practiced in Ceramics 1 and 2, students develop their own voice through designing a thematic series. This work is supported with planning and reflection with journals and writing from conception to completion of projects.

Career Cluster	Visual Arts
Credits	1.00
Grade(s)	11,12
Prerequisites	Ceramics 2

Chemistry - Liberty High School

This is a lab-based chemistry course (Patterns Chemistry) designed for 10th grade students based on the Next Generation Science Standards (NGSS). Using science and engineering practices, students will explore the interactions among different forms of energy and matter. Topics covered include: physical properties and changes. Kinetic Molecular Theory and gas laws, periodic table and atoms, nuclear chemistry, bonding, chemical reactions, thermodynamics, kinetics, and equilibrium. An emphasis will be placed on the application of mathematical and computational thinking within the context of chemistry. This course will address all of the Oregon Department of Education chemistry, inquiry and engineering standards.

Career Cluster	Chemistry
Credits	1.00
Grade(s)	10

Child Development 1 - Liberty High School

Child Development 1 will focus on important aspects of human development from prenatal through the toddler years. All aspects of development will be explored including areas, theories, influences and risks, and importance of quality caregiving. Activities and projects will emphasize the understanding of the areas of development. Child Development assists students who are interested in the field of early childhood education, education, health, social services, and family law.

Career Cluster	Early Childhood Education
Credits	0.50
Grade(s)	9,10,11,12

Child Development 2 - Liberty High School

This class has been developed as an introductory course for students who are interested in becoming educators, coaches, counselors, parents or other careers that focus on working closely with children. Focused on the preschool - elementary aged child, this course will explore developmental domains and stages and practices in early childhood education. Students will learn theories and techniques that will help them to plan for, interact, care for, and educate young children. Additionally, students will have hands-on practical experiences to directly relate, observe and use the concepts learned in class. The skills gained in this class are meant to lead them directly into Child Development 3.

Career Cluster	Early Childhood Education
Credits	0.50
Grade(s)	9,10,11,12
Prerequisites	Child Development 1

Child Development 3 - Liberty High School

This course is for students exploring careers in education, child care, or related social services. Child Development 3 is a yearlong course for students to gain the skills and knowledge necessary to work with children ages three to six. Students will play an integral part in running the onsite learning lab Early Childhood Education preschool program by planning lessons, preparing activities, performing observations, and developing introductory job skills related to education. Curriculum topics focus on growing in your role as a teacher.

Career Cluster	Early Childhood Education
Credits	1.00
Grade(s)	11,12
Prerequisites	Child Development 2

Child Development 4 - Liberty High School

This class is for students interested in careers in education, child care, or related social services. In this year long course students will apply the skills learned in foundational courses including: classroom management, teaching and learning strategies, and lesson planning. Students take on more of an active teaching role while working in the preschool. Curriculum topics focus on observation and assessment, behavior and guidance, leading large groups, and other more in-depth concepts. Students will also plan and complete their senior project within this class.

Career Cluster	Early Childhood Education
Credits	1.00
Grade(s)	12
Prerequisites	Child Development 3, administrative approval

Environmental Science - Liberty High School

Environmental Science is an interdisciplinary course focused on the connections between the physical, chemical, and biological systems on earth. Understanding the natural cycling of water, nutrients, and energy is a primary focus of this course. The impact of human behavior as it applies to interactions with the natural world will be explored in detail. Concepts of sustainable and resilient human communities will be integrated into investigations of earth's systems and cycles.

Career Cluster	Integrated Sciences
Credits	1.00
Grade(s)	9,10,11,12

Health Sciences 1 - Liberty High School

Health Sciences 1 is designed for students interested in medical, health science, or fitness related careers. Curriculum includes First Aid/CPR/AED certification and possible opportunities to explore health science careers through speakers, field trips, job shadows and hospital volunteering. A focus on professional skills is included in daily activities.

Career Cluster	Healthcare & Human Services
Credits	1.00
Grade(s)	11

Health Sciences 2 - Liberty High School

This class is for students interested in careers in edis the culmination course for the Health Sciences pathway. This course will focus in greater depth on the body systems and medical terminology. A focus on professional skills, bioethics of healthcare, and postsecondary preparation is included in daily activities. Students are required to complete an experiential learning opportunity in the health science field as well as a service project, a compilation of a body of evidence and a research paper.

Career Cluster	Healthcare & Human Services
Credits	1.00
Grade(s)	12
Prerequisites	Health Sciences 1 & Anatomy & Physiology

Data Science - Liberty High School

In this course, students will utilize industry-standard tools in the field of Data Science and Analysis to deepen their knowledge of basic statistics, analyze real world problems, draw conclusions, and communicate their thinking. These tools could include Tableau, Excel, Google Sheets, CODAP, and more. Completion of this course supports subsequent success in all math classes, but specifically scaffolds for success in AP Statistics and AP Computer Science Principles.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Algebra 1 + Data Reasoning & Geometry

Fire Science 1 - Liberty High School

Students entering this class should have a strong desire for a career in firefighting and/or Emergency Medical Services. This course is designed to provide entry-level exposure to the skills utilized in today's fire service. This program provides an in-depth look at the three main areas of today's fire service: structural firefighting, wildland firefighting and EMS. Students will perform basic skills utilized in the fire and emergency services occupations including PPE donning/doffing, SCBA's, ropes, hoisting, ladders, hydrants and hose mechanics, pump operations, communications and navigation skills. Learn the key concepts of today's fire service and how they are impacted by society, history of fire, and complete their BLS certification. It is recommended for students be enrolled in a weight training class to build and maintain physical strength and conditioning required of this class and the position of a firefighter.

Career Cluster	Fire Science
Credits	1.00
Grade(s)	11,12
Prerequisites	Introduction to Fire & Emergency Services

Fire Science 2 - Liberty High School

Year 2 students must have successfully completed Fire Science 1 and interview with the instructor before continuing to the second level. Continuing students should be physically fit with the ability to carry, lift or drag up to 70 lbs., utilize a variety of hand tools, demonstrate skills utilizing ladders, fans, hose streams and SCBAs. Ability to function within a team is desirable. This course is designed to provide a hands-on introduction to a career in today's fire service. This course builds on skills mastered in Fire Science 1. Class will be held at the Hillsboro Fire Training Center most of the year with some topics being covered on campus at Liberty HS. This course studies basic fire fighter safety, equipment, and procedures that are used during fireground operations. Students will learn through interactive lecture, demonstrations, and practical application led by instructors/ firefighters from Hillsboro Fire & Rescue. Other areas of study include: understand the importance of physical fitness; utilize a variety of hand tools; demonstrate skills utilizing ladders, fans, hose streams and SCBAs; demonstrate basic search and rescue, extrication, and rope rescue. It is recommended for students to enroll in a weight training class to build and maintain physical strength and conditioning. Dual credit will be offered for this course that is equivalent to the following PCC course: FP 133: Wildland Firefighter (3)

Career Cluster	Fire Science
Credits	2.00
Grade(s)	12
Prerequisites	Fire Science 1

Film 1 - Liberty High School

This course develops fundamental skills for filmmaking, appreciation of film as an art form, and use of technology for the creation of film. Students will watch and analyze films for impact and technique and will work to emulate those techniques using film equipment and editing software. By the end of the course, students will have the skills necessary for creating films and will have an understanding of film as a powerful and important art form.

Career Cluster	Film
Credits	1.00
Grade(s)	10,11,12

Civic & Community Services 1 - Liberty High School

This course is the foundation for the Human Resource pathway. Students will explore five career areas in depth: Education, Aging and the Elderly, Nursing, Service, Social Problems and Solutions. Students will identify and research current issues and participate in community-based projects which will emphasize workplace connections and career opportunities. This course also prepares students for CCS 2 in the senior year.

Career Cluster	Community Service
Credits	1.00
Grade(s)	10,11

Civic & Community Services 2 - Liberty High School

CCS 2 is the culmination of the Human Resources pathway. It will continue CCS 1's goal of college and career readiness and will focus on community activism. Students will design and implement their senior project during this class. Senior projects could include: a campaign to get a new sidewalk installed near school, organizing a public forum on a voter initiative, or organizing a community service event. In addition, each student will complete an internship related to his or her career interest as well as attend one community meetings that will be completed outside of class.

Career Cluster	Community Service
Credits	1.00
Grade(s)	12

Gourmet Foods & Hospitality - Liberty High School

This intermediary course builds upon the foundations set in the prerequisite class and provides a more comprehensive overview of the culinary arts and hospitality industry. Continuing with increasingly challenging hands-on lab experiences and group projects, students will further build skills in food preparation, safety and sanitation, teamwork, communication, and problem solving. Students will develop knowledge and skills needed to be successful employees, such as teamwork, communication and professionalism, as well as managerial skills of customer service, menu planning and food cost control. This course is designed to equip students with the knowledge and skills necessary to succeed in culinary arts and hospitality careers.

Students are required to have a current Food Handlers Card to fully participate in the class.

Career Cluster	Culinary Arts and Hospitality
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Intro to Culinary Arts

Communications - Liberty High School

This is an introductory course designed to help students develop confidence and competence in public speaking. Students will give impromptu, informative, persuasive, and interpretive speeches. Students will learn research skills and effective use of researched information in writing and speaking. Students will also explore and discuss current events. Students are encouraged, but not required, to compete in Speech and Debate tournaments.

Career Cluster	Communications
Credits	0.50
Grade(s)	9,10,11,12

Community Living - All Schools

This course is designed to teach students skills that are important for community involvement which include: communication, social interaction skills, safety, money management, budgeting, shopping, navigating the environment, and self-determination.

Career Cluster	Student Services
Credits	0.50
Grade(s)	9,10,11,12

Community Service Learning Elective: Local Business/Organization - Liberty High School

This semester course is designed to engage our youth in a meaningful internship placement that closely parallels a student's career pathway interest. This course introduces students to many of the main tasks and functions of a particular career or organization. Working in conjunction with a local business, corporation or non-profit, students will support projects related to the agency's primary work. The course will serve the purpose of developing leadership, problem-solving and practical skills related to the world of work. The internship experience and skills gained in this course will benefit students by developing college and career readiness skills as well as developing their civic skills as citizens in their community working with local businesses and agencies. Students interested in taking this course must see counselor for application. Approval is required prior to enrollment. In order to earn the 0.5 credit, students must complete 65 hours.

Career Cluster	Additional Educational Opportunities
Credits	0.50
Grade(s)	9,10,11,12
Prerequisites	Application and teacher approval

Community Service Learning Elective: Sports Medicine/Physical Education - Liberty High School

This semester course will provide students an internship placement specific to K-12 physical education. The internship experience and skills gained in this course will benefit students by developing college and career readiness skills as well as developing their knowledge and skills in the field of physical education. Students interested in taking this course must see their counselor for an application. Approval is required prior to enrollment.

Career Cluster	Additional Educational Opportunities
Credits	0.50
Grade(s)	9,10,11,12
Prerequisites	Application and counselor approval

Peer Tutor - Liberty High School

Peer tutors are students who have demonstrated proficiency at high levels in or across subject areas. They work one-on-one or in groups with students in the classroom or during tutoring sessions. Peer tutors must be highly responsible and have a desire to help others learn.

Career Cluster	Additional Educational Opportunities
Credits	0.50
Grade(s)	11,12

Concert Choir (SATB)* - Liberty High School

Concert Choir is the high school's premier chorus for experienced choral students who have well developed vocal technique, as well as sight reading and music theory knowledge. Emphasis is placed on teamwork and developing advanced vocal technique and musicianship. A wide variety of choral music is studied and performed at required concerts, festivals, and special performances throughout the school year.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Director approval/audition

Connections to Careers - All Schools

This course is designed for students who need to develop knowledge and skills required for successful employment. Students will look how and where to find job openings and develop the skills necessary to get and keep a job.

Career Cluster	Student Services
Credits	0.50
Grade(s)	12

Jazz Ensemble - Liberty High School

Jazz Ensemble is an instrumental course designed to study and perform in many different styles including Swing, Bebop, Latin, Rock, and many more.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	See notes

Wind Ensemble - Liberty High School

Wind Ensemble is the top audition band class on campus. It is open to all students in all grade levels that pass an audition/placement process. Focus will be placed on higher level skill development and expression through use of appropriate band repertoire. Students will also grow through multiple performance opportunities. Participation in marching band in the fall and pep band in the winter is expected from all band members.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Director approval/audition

Vocal Ensemble - Liberty High School

Vocal Ensemble is a performing ensemble for experienced choral musicians. Contemporary a cappella and advanced choral literature for the small ensemble is studied and performed at required concerts, festivals, and special performances for community organizations throughout the school year.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	10,11,12
Prerequisites	See note

Construction Technology - Liberty High School

Introductory inquiry course based on construction of small structures and basic woodworking projects. Topics may include basic site layout, building frame layout, building envelope, electricity, plumbing, and concrete. This course is intended to give students experience in a workplace like setting to allow for technical skill development. Students will manage small projects involving one or more of the topic areas. Projects will be done in an outdoor setting as well as in a shop. This course is a prerequisite for Sustainable Design 1.

Career Cluster	Construction & Woodworking
Credits	1.00
Grade(s)	9,10,11,12

Treble Chorus (SSAA)* - Liberty High School

This chorus is for the vocal range of soprano and alto singers. Emphasis is placed on teamwork and developing skills in vocal technique, sight reading, and music theory. Numerous performing opportunities include required concerts, festivals, and special performances throughout the school year.

Career Cluster	Performing Arts
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Director approval/audition

Liberty Marketing & Management, Inc. - Liberty High School

This is an advanced application course open to students who are completing Liberty's Media Marketing and Management pathway. Students will have the opportunity to apply skills and knowledge acquired in previous LHS courses to marketing and management opportunities at Liberty High School. Applied learning opportunities may involve operating Liberty's student store and plan, organize and promote LHS athletic, music, or festival events.

Career Cluster	Business and Marketing
Credits	1.00
Grade(s)	12
Prerequisites	Sports, Entertainment & Event Marketing

Court Sports - Liberty High School

Court Sports is an elective fitness class which provides students with the opportunity to play sports with less physical contact. Students will participate in activities such as: badminton, volleyball, tennis, and pickleball, etc. Singles and doubles, league play, and tournament play for each sport will allow students an opportunity to explore their single strengths and interests.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	9,10,11,12

Creative Writing 1 - Liberty High School

This course offers students the opportunity to produce various literary forms such as poetry, fiction, personal narratives, and journal writing. Students also learn how to edit and revise.

Career Cluster	Language Arts
Credits	0.50
Grade(s)	10,11,12

Creative Writing 2 - Liberty High School

This course is for serious writers who wish to further develop their skills in a particular genre of writing. Independent projects will be student-driven, with a group workshop format to help students revise and revitalize their craft.

Career Cluster	Language Arts
Credits	0.50
Grade(s)	10,11,12
Prerequisites	Creative Writing 1

Data Reasoning & Geometry - Liberty High School

The fundamental purpose of this course is to formalize and extend past the geometric and data reasoning topics that have been presented throughout students' elementary and middle grades experience. Students will apply the Mathematical Practice Standards alongside the Oregon State High School Math Standards (2021) in meaningful ways so they see math as a coherent, useful, and logical subject that can support their development of critical thinking and problem solving skill sets. In Data Reasoning, students will collaboratively use models, graphs, measures of central tendency, regression, and probability to make meaningful arguments about data and the story it tells. In Geometry, students will be exposed to topics that are critical to their mathematical development, including right triangle geometry and trigonometry, transformations, polygons, and proof/justification.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	9

Team Sports - Liberty High School

This course is recommended for students who want to play a variety of team sports at a more competitive level. Activities may include: fleetball, basketball, volleyball, indoor soccer, team handball, etc. Advanced game skills and strategies, competitive tournaments and refereeing opportunities are provided.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	10,11,12

Discovering Natural Resources - Liberty High School

This course is designed to help students develop an awareness of renewable and nonrenewable natural resources. Students will be exposed to a variety of activities and labs that provide hands-on learning and the application of scientific principles. This course is an introduction to further studies in the natural resources field.

Career Cluster	Veterinary Science
Credits	0.50
Grade(s)	9,10,11,12

Life Skills Classroom - All Schools

This course is designed to help eligible students improve their independent living skills, functional academics, organizational skills and social communication. Students will be working toward class goals and personal goals collectively. There is a major focus on life skills (shopping, work experience, cooking, independence, and personal care) in order to improve the skills needed to be successful in high school and after graduation. Our class strives to mirror the community in all ways possible.

Career Cluster	Student Services
Credits	0.50
Grade(s)	9,10,11,12

Independent Living Skills - All Schools

This course is designed to teach students independent living skills which include: basic daily living skills, meal preparation/ cooking, time management, communication, self-determination, self-care, household management, task analysis, and laundry.

Career Cluster	Student Services
Credits	0.50
Grade(s)	9,10,11,12

Sustainable Design 1 - Liberty High School

This course will focus on basic design processes, including planning, prototyping, fabricating, testing, and revising sustainable small structures and devices. Topics will include rationale for sustainable building, drafting, building science, sustainable materials, as well as water and energy efficiency. Sustainable building methods and systems will be introduced in preparation for the capstone course.

Career Cluster	Construction & Woodworking
Credits	1.00
Grade(s)	11,12
Prerequisites	Construction Technology

Digital Photography 1 - Liberty High School

Students will be introduced to the field of digital photography. Students will learn the basic elements of composition in photography and how to compose quality artistic and commercial photographs in both black & white and color. Students will learn to enhance and manipulate their photographs through post-production work using graphic design software.

Career Cluster	Visual Arts
Credits	0.50
Grade(s)	9,10,11,12

Digital Photography 2 - Liberty High School

Digital Photography 2 goes deeper into the social/career related aspects of photography. Projects may include photo-interview, photo essays, photojournalism and promotional posters. Photoshop is explored further as a creative tool and students craft photo series that are presented in class and online.

Career Cluster	Visual Arts
Credits	0.50
Grade(s)	10,11,12
Prerequisites	Digital Photo 1

Digital Photography 3 - Liberty High School

Students will choose and explore a conceptual theme or idea that will guide and inspire their final presentation. Students will spend the semester working on completing that presentation through photography, post-production and self-reflection. Students will present a final project of 12 strong images and an artist' statement that clearly support their conceptual theme or idea which will be presented on Senior Project night.

Career Cluster	Visual Arts
Credits	0.50
Grade(s)	10,11,12
Prerequisites	Digital Photography 1 & 2

Graphic Design 1 - Liberty High School

Students explore graphic design areas including illustration, product design, poster design, logo design and more. Students will learn to use programs from the Adobe Creative Suites. All projects involve creative problem-solving through typography and letterforms, color theory, aesthetics and criticism. Students will learn to use the design process, and the steps to creating a refined finished design. Graphic Design is a gateway to many career options in commercial art and design.

Career Cluster	Visual Arts
Credits	0.50
Grade(s)	9,10,11,12

Graphic Design 2 - Liberty High School

Graphic Design 2 continues the exploration of real world design through work-based/ simulated learning projects and issues using traditional and nontraditional media, and Adobe Creative Suite.

Career Cluster	Visual Arts
Credits	0.50
Grade(s)	10,11,12
Prerequisites	Graphic Design 1

Graphic Design 3 - Liberty High School

This course is designed as the 3rd step in the graphic design pathway program. This course will focus on elevating skills from graphic design 1- 2 while students collaborate on projects with building and District clients. Students will integrate the various Adobe Programs while creating authentic projects for building and district needs. Students will begin building relationships with industry professionals.

Career Cluster	Visual Arts
Credits	1.00
Grade(s)	11,12
Prerequisites	Graphic Design 1&2

Sustainable Design 2 - Liberty High School

This course will expand upon concepts explored in Sustainable Design 1, but will focus on the application of sustainable building concepts and further practical skill development. This is the capstone course for the Sustainable Design Program of Study.

Career Cluster	Construction & Woodworking
Credits	1.00
Grade(s)	11,12
Prerequisites	Sustainable Design 1

Drafting Technology 1 - Liberty High School

In this course, students will learn how to make various objects using one or more of the following methods: geometric constructions, multiview drawings, sectioning, isometric, oblique, perspective and developments. How to dimension a drawing and how to letter properly will be included. Shop processes and occupational information will be included in this class.

Career Cluster	Drafting
Credits	0.50
Grade(s)	9,10,11,12

Drafting Technology 2 - Liberty High School

Students desiring to follow a career in engineering or drafting should register for this course. Entry-level skills will be obtained for employment in the field. The course of instruction will include advanced multi-view projections, sectioning, pictorial drawings and developments, dimensioning, intersections, gears, welding drawings and symbols, auxiliary views, threads and fastenings, assembly drawings, and lettering

Career Cluster	Drafting
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Drafting Technology 1

Dual Language Program (DLP) Spanish Language Arts 10 - Liberty High School

DLP Spanish Language Arts 10 is a continuation of the dual language program, which alternates between Latin American and Spanish Literature. This course follows the IBD curriculum cycling through the following skills: 1) Independent reading, class routines including fluency writing and error journal, forming and writing about interpretations of literary texts. 2) Developing strategies for working with challenging informational texts, working between texts, writing using information from multiple texts. 3) Building on work with challenging texts, literary interpretation, and examining structure of texts. 4) Working across text types and genres using a common interpretive lens, significant cross-textual work. 5) Reading and writing research-based reports, practicing research methods. 6) Examining how a particular work has been reinterpreted over time, significant interpretive and cross-textual work. Additionally, the course uses the study of a novel that examines the use of interpretation and comprehension with academic vocabulary that endures the exposition of a comparison essay.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	10
Prerequisites	DLP student

Dual Language Program (DLP) Spanish Language Arts 11 - Liberty High School

DLP Spanish Language Arts 11 is a continuation of the dual language program, which alternates between Latin American and Spanish Literature. This course follows the IBD curriculum cycling through the following skills: 1) Independent reading, class routines including fluency writing and error journal, forming and writing about interpretations of literary texts. 2) Developing strategies for working with challenging informational texts, working between texts, writing using information from multiple texts. 3) Building on work with challenging texts, literary interpretation, and examining structure of texts. 4) Working across text types and genres using a common interpretive lens, significant cross-textual work. 5) Reading and writing research-based reports, practicing research methods. 6) Examining how a particular work has been reinterpreted over time, significant interpretive and cross-textual work. Additionally, the course uses the study of a novel that examines the use of interpretation and comprehension with academic vocabulary that endures the exposition of a comparison essay.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	11
Prerequisites	DLP student

Dual Language Program (DLP) Spanish Language Arts 12 - Liberty High School

DLP Spanish Language Arts 12 is a continuation of the dual language program, which alternates between Latin American and Spanish Literature. This course follows the IBD curriculum cycling through the following skills: 1) Independent reading, class routines including fluency writing and error journal, forming and writing about interpretations of literary texts. 2) Developing strategies for working with challenging informational texts, working between texts, writing using information from multiple texts. 3) Building on work with challenging texts, literary interpretation, and examining structure of texts. 4) Working across text types and genres using a common interpretive lens, significant cross-textual work. 5) Reading and writing research-based reports, practicing research methods. 6) Examining how a particular work has been reinterpreted over time, significant interpretive and cross-textual work. Additionally, the course uses the study of a novel that examines the use of interpretation and comprehension with academic vocabulary that endures the exposition of a comparison essay.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	12
Prerequisites	DLP student

Dual Language Program (DLP) Spanish Language Arts 9 - Liberty High School

DLP Spanish Language Arts 9 is a continuation of the dual language program, which alternates between Latin American and Spanish Literature. This course follows the IBD curriculum cycling through the following skills: 1) Independent reading, class routines including fluency writing and error journal, forming and writing about interpretations of literary texts. 2) Developing strategies for working with challenging informational texts, working between texts, writing using information from multiple texts. 3) Building on work with challenging texts, literary interpretation, and examining structure of texts. 4) Working across text types and genres using a common interpretive lens, significant cross-textual work. 5) Reading and writing research-based reports, practicing research methods. 6) Examining how a particular work has been reinterpreted over time, significant interpretive and cross-textual work. Additionally, the course uses the study of a novel that examines the use of interpretation and comprehension with academic vocabulary that endures the exposition of a comparison essay.

Career Cluster	Language Arts
Credits	1.00
Grade(s)	9
Prerequisites	DLP student

Physical Education 1 - Liberty High School

This course stresses sportsmanship and desirable social habits. A wide range of activities are available to increase knowledge, skill, understanding, and appreciation of recreational activities and sports. Activities, both aerobic and anaerobic, promote physical fitness, flexibility, strength, and cardiovascular endurance. An academic curriculum content is included.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	9

Physical Education 2 - Liberty High School

Students are encouraged to develop positive personal fitness. Both aerobic and anaerobic activities are included. Students engage in various lifetime carryover activities through participation in various team sport activities and dual/individual activities presenting opportunity for social development.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	9,10,11,12

Unified PE - Liberty High School

Unified Physical Education is a PE class made up of students with and without disabilities working together to build strong and healthy habits. This class focuses on lifelong fitness, healthy habits and creating respectful bonds with fellow students through active participation, cooperation and teamwork. Students earn .5 general education PE credit during the semester. The major objectives of this class include gross motor skill development, improved physical fitness and developing an understanding for various rules of different games and activities.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	10,11,12

ELD 1: Beginning - Liberty High School

This course is designed for Beginning to Early Intermediate English language learners. Students at this level are able to read and demonstrate comprehension of basic grade-level information with very limited fluency. Some students are able to read and demonstrate comprehension of simple or highly contextualized information with limited fluency. Students are able to speak and write using simple language with limited accuracy and fluency. This course incorporates content specific vocabulary in the teaching of the forms and functions of the English language at the student's proficiency level.

Career Cluster	English Language Development
Credits	2.00
Grade(s)	9,10,11,12
Prerequisites	Meets ELPA placement or WMLS-R levels 1-2 placement criteria

ELD 2: Early Intermediate/Intermediate - Liberty High School

This course is designed for Intermediate English language learners. Students at this level require ongoing instructional support in all content area. They are able to read and demonstrate comprehension of limited grade-level information with significant support. They are able to speak using some complex language and write with simple academic language with some accuracy and fluency. This course incorporates content specific vocabulary in the teaching of the forms and functions of the English language at the student's proficiency level.

Career Cluster	English Language Development
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Meets ELPA placement or WMLS-R levels 2, 2.5 placement criteria

ELD 3: Intermediate/Early Advanced - Liberty High School

This course is designed for Early Advanced English language learners. Students at this level require additional instructional support. They are further developing literacy skills to demonstrate comprehension of some grade-level information with approaching grade-level fluency. They are able to speak with increasingly complex language, and write with some academic language with adequate accuracy and fluency. This course incorporates content specific vocabulary in the teaching of the forms and functions of the English language at the student's proficiency level.

Career Cluster	English Language Development
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Meets ELPA placement or WMLS-R levels 2.5, 3 placement criteria

ELD 4: Early Advanced/Advanced - Liberty High School

This course is designed for Advanced English language learners. Students at this level require minimal instructional support. They are further developing literacy skills to demonstrate comprehension of a range of complex and abstract grade-level information. They are able to speak and write using an extensive range of complex language with level of accuracy and fluency that closely resembles native English speakers.

Career Cluster	English Language Development
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Meets ELPA placement or WMLS-R 4, 4.5 placement criteria

ELD 4: Reading & Writing Advanced - Liberty High School

This course is designed for Advanced English language learners who have been in ELD 4 for 2 or more years. Students at this level require minimal instructional support in Listening and Speaking. They are further developing literacy skills in reading and writing to demonstrate comprehension of a range of complex and abstract grade-level information. They are able to speak and write using an extensive range of complex language with a level of accuracy and fluency that closely resembles native English speakers. This course will also engage in topics connected to college and career readiness.

Career Cluster	English Language Development
Credits	1.00
Grade(s)	11,12
Prerequisites	2+ Years of ELD 4

Newcomer ELD - Liberty High School

This course is designed to accelerate the acquisition of the English language for students newly arrived to the U.S. school system. Students who have minimal English language proficiency will learn school procedures, introductory vocabulary based on thematic units, and cultural orientation. Selected mainstream classroom content may be covered with supplementary use of the first language in order to clarify concepts and facilitate a rapid transition to English.

Career Cluster	English Language Development
Credits	2.00
Grade(s)	9,10,11,12
Prerequisites	Meets ELPA placement or WMLS-R level 1 placement criteria

ELD Tutorial - Liberty High School

The program provides the students with a set of guidelines, learning tools, and academic tutoring which will enable them to become independent learners and make a successful transition into mainstream courses.

Career Cluster	English Language Development
Credits	0.50
Grade(s)	9,10,11,12

Electronic Technology 1 - Liberty High School

This course explores direct current electronics and electricity. The use of electronic test equipment, simple circuit building techniques, and analysis are explored. Students will learn to solder electrical components. Students will perform hands-on problem solving activities and will explore career options in electronics and engineering.

Career Cluster	Engineering & Electronics
Credits	0.50
Grade(s)	10,11,12

Strength Training & Conditioning - Liberty High School

This course is recommended for self-motivated students who wish to achieve a high level of physical development through weight training, running, flexibility work, and conditioning. Throughout this course, students will be introduced to, and participate in, the basic elements of developing a weight training program and the proper form and techniques of various lifts. Students will use stretching exercises to increase flexibility speed, agility, and endurance. Students will learn basic anatomy and nutrition as they relate to fitness, and work towards personalized goals.

Career Cluster	Physical Education
Credits	0.50
Grade(s)	9,10,11,12
Prerequisites	Completion of PE 1

Spanish 1 - Liberty High School

Students will acquire basic language tools and vocabulary to talk about experiences in the present. Students will work toward a beginning level of language proficiency in speaking, listening, reading, and writing. Cross-cultural understanding is explored.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12

Spanish 2 - Liberty High School

Students will continue to develop their level of communicative proficiency to expand on past experiences and interests. Students will increase vocabulary and understanding of language structure. Cross-cultural understanding is explored.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Demonstrate proficiency at level 1

Spanish 3 - Liberty High School

Students will continue to build reading and writing skills. Student proficiency will increase through oral conversations, skits and real-life simulations. Student will be able to communicate in multiple time frames. Cross-cultural understanding is explored.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Demonstrate proficiency at level 2

Spanish 4 - Liberty High School

Students will refine skills in reading, writing, listening, and speaking using real world experiences and authentic resources.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Demonstrate proficiency at level 3

World Studies - Liberty High School

This full-year freshman course is designed to better acquaint students with the study of major world developments, increasing their knowledge of geography and history and how these studies relate to the world today. World Studies will also focus on the development of specific skills such as summarizing, categorizing, synthesizing, and analyzing various types of information. These skills will help students to increase their field-specific reading and writing ability. Students will also be encouraged to develop their speaking skills during informal discussions and formal presentations. This class is structured in a format that will include analysis of primary sources and discussion of this material.

Career Cluster	Social Science
Credits	1.00
Grade(s)	9

Expanded Options - All Schools

Expanded Options provides an opportunity to attend college level classes if a student needs a core/required_course at a level not provided at their school or within the district while still in high school with tuition paid by the District. Additionally, Expanded Options could be utilized if a student is interested in a career and college pathway program that is not available to them within the district. There is a limit to the number of credits the District can provide and participation priority is given to students who qualify for the free and reduced-priced meal program. Students must be accepted by an eligible public postsecondary Oregon institution and follow a learning plan agreed upon by the student, staff, and parents to reflect the student's goals. Students must be 16 or older at the time they begin the course.

Career Cluster	Off-Campus Supplemental Opportunities
Grade(s)	10,11,12
Prerequisites	Appropriate HS prerequisites; parent, counselor and administrator approval. Space is subject to availability.

Work Experience p. 139 - Liberty High School

Off-campus work experiences are designed to develop employability skills. Students will learn what is expected in a work setting in a hands-on environment. This course offers elective credit for students who are self placed in a job, internship, or apprenticeship.

Career Cluster	Additional Educational Opportunities	Student Services
Credits	0.50	
Grade(s)	10,11,12	

Navigating Adulthood - Liberty High School

This course will help students to prepare for life after high school by learning the things adults need to know to navigate life successfully. Topics will include financial responsibilities, professional skills, civic responsibility, understanding the diverse world we live in, interacting in a digital era, and balancing life responsibilities.

Career Cluster	Additional Educational Opportunities
Credits	0.50
Grade(s)	11,12

Personal Finance & Economics - Liberty High School

The purpose of this course is to give the student a working knowledge of everyday business and consumer transactions. Major concepts explored include: employment and income, money management, budgeting, checking and savings accounts, investments, credit (financial planning), consumerism, insurance, and taxation. This course also examines the principles and concepts of micro and macroeconomics, explores comparative economic systems, and the world economy.

Career Cluster	Social Science
Credits	1.00
Grade(s)	12

Physics 1 - Liberty High School

This is a lab-based physics course (Patterns Physics) designed for freshmen based on the Next Generation Science Standards (NGSS). Using science and engineering practices and critical thinking students will discover and apply patterns in such major physics topics as motion, forces and momentum, energy, waves, and electromagnetism. Units include 1) Patterns, 2) Energy and Engineering, 3) Engineering a Shoe, 4) Waves and Technology, 5) Electricity, Power Production, and Climate Science, and 6) Space and the Universe. An important aim of the course is to develop and build students' mathematical and computational thinking, problem solving skills, scientific and technical literacy that will be useful in later science courses. The units also intentionally address career and college readiness. This course will address all Oregon Department of Education physics, inquiry, and engineering standards.

Career Cluster	Physics
Credits	1.00
Grade(s)	9

Foundations for the Future - All Schools

This course is designed for students who need to learn about problem-solving, self-advocacy, goal setting and personal awareness to become more successful students. In the units, students will gain knowledge of their strengths and weaknesses, personal disability, and how to speak up for themselves in a school setting. Students will practice developing communication and decision making skills.

Career Cluster	Student Services
Credits	0.50
Grade(s)	9,10

French 1 - Liberty High School

Students will acquire basic language tools and vocabulary to talk about experiences in the present. Students will work toward a beginning level of language proficiency in speaking, listening, reading, and writing. Cross-cultural understanding is explored.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12

French 2 - Liberty High School

Students will continue to develop their level of communicative proficiency to expand on past experiences and interests. Students will increase vocabulary and understanding of language structure. Cross-cultural understanding is explored.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Demonstrate proficiency at level 1

French 3 - Liberty High School

Students will continue to build reading and writing skills. Student proficiency will increase through oral conversations, skits and real-life simulations. Student will be able to communicate in multiple time frames. Cross-cultural understanding is explored.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Demonstrate proficiency at level 2

French 4 - Liberty High School

Students will refine skills in reading, writing, listening, and speaking using real world experiences and authentic resources.

Career Cluster	World Languages
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Demonstrate proficiency at level 3

Theatre Foundations - Liberty High School

This exploratory course exposes students to the fundamentals of theatrical production both onstage and backstage. Students will learn beginning acting techniques while also becoming acquainted with theatrical equipment and the basics of theatrical terminology, history and design.

Career Cluster	Theatre & Film Arts
Credits	0.50
Grade(s)	9,10,11,12

People & Politics - Liberty High School

People and Politics focuses on how people are involved in the American political process. It examines the historical foundations of the United States, how government is organized and how it functions. Topics include citizen participation, individual rights, political parties, campaigns, and local, state, and national government. Student participation in a variety of classroom and political activities are a strong emphasis of this course.

Career Cluster	Social Science
Credits	0.50
Grade(s)	12

Student Government - Liberty High School

This year-long course is mandatory for all elected and appointed Student Government members. Advanced leadership skills will be reinforced while students plan for, run, and evaluate most of the activities within the school. Community service and school improvement projects are also a part of this class.

Career Cluster	Leadership
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Elected or appointed to a student government office. Required for elected and appointed officers.

Guitar 1 - Liberty High School

This course is for the beginning guitar student. Chord theory, note reading, basic strum patterns, picking patterns, lead patterns, and ensemble playing will be the focus. The basic knowledge and skill developed in this class will enable the student to begin to explore guitar music styles that interest them. There will be group class time when all students work together, and time for individual and small group project work. Guitars will be provided for students to play during class. It is recommended that students provide their own guitar for practice at home.

Career Cluster	Performing Arts
Credits	0.50
Grade(s)	9,10,11,12

Guitar 2 - Liberty High School

This course is for all students who have completed Guitar 1. Advanced chord theory, note reading, strum and patterns, lead patterns and ensemble playing will be the focus. There will be both class work and individual work. Students will work as a class to develop required skills. They will also work on individual performance and skill projects that focus on their own chosen guitar styles and interests. Guitars will be provided for students to play during class. It is recommended that students provide their own guitar for practice at home.

Career Cluster	Performing Arts
Credits	0.50
Grade(s)	10,11,12
Prerequisites	Guitar 1 or proficiency

Health - Liberty High School

This course covers concepts and skills necessary for attaining and maintaining personal wellness (the combination of physical, mental/emotional, and social health) throughout one's life. Emphasis is placed on health-promoting behavior as the most effective measure for preventing premature death and disease and leading a fulfilling and productive life. Concepts covered include: alcohol, tobacco, and other drug prevention; prevention and control of disease; promotion of environmental health; promotion of healthy eating; promotion of mental, social, and emotional health; promotion of physical activity; sexual health; unintentional injury prevention; and violence and suicide prevention. Skills for accessing information, self management, analyzing influences, interpersonal communication, goal setting, decision-making, and advocacy are taught and/or practiced in a health context to promote lifelong wellness. This class meets the health requirement for both the state and the district, and is aligned to current state standards.

Career Cluster	Health
Credits	1.00
Grade(s)	10

U.S. History - Liberty High School

This course examines the major themes, events, and people that have influenced American history from 1864 to the present. Events related to the political, economic, and social development of America will be covered in depth throughout the year, with special attention paid to identifying linkages between past and current events. Students in this course will analyze and discuss a broad variety of problems that have influenced the development of American history, with an emphasis on how evolving norms have influenced the way that we study history. The major goals of this course are to encourage the ongoing development of the skills of historical analysis, synthesis and critical thinking.

Career Cluster	Social Science
Credits	1.00
Grade(s)	11

Introduction to Horticulture Technology & Design - Liberty High School

This class is designed to provide the beginning student with basic knowledge of plant anatomy, physiology and classification. The effects of the environment on plant growth and development are explored. Material is presented by lecture, visual aids and hands-on laboratory experiences.

Career Cluster	Agriculture
Credits	0.50
Grade(s)	9,10,11,12

Introduction to Arts - Liberty High School

This multidisciplinary, student-centered class is designed to encourage and provide students with the broadest opportunities to explore unexpected creative, intellectual and vocational pathways. The student constructs and demonstrates understanding through an art form (visual, music, dance, writing, performance) that connects two or more art forms and another subject area. The student will compose, choreograph, write and draw or paint, in addition to learning the historical and cultural contexts for these art forms.

Career Cluster	Communications
Credits	0.50
Grade(s)	9,10

Introduction to Culinary Arts - Liberty High School

This introductory course provides a foundation in the culinary arts and hospitality industry. Through collaborative work and hands-on instruction, students will apply lessons on equipment and knife safety and proper sanitation measures in each kitchen lab. Students will develop fundamental cooking and baking skills, proper measuring, and the role of ingredients in various dishes. From this, students will prepare and taste a variety of foods, gaining a deeper understanding of flavor profiles, cooking techniques, and evaluation of finished dishes. This course is designed to spark creativity, foster a passion for food, and prepare students for further exploration within the culinary arts and hospitality industry.

Students will pass the Washington County Food Handlers test.

Career Cluster	Culinary Arts and Hospitality
Credits	0.50
Grade(s)	9,10,11,12

Credits	0.50
Grade(s)	9,10,11,12

Introduction to Health Sciences - Liberty High School

This course provides students with the basics for high school success and the concepts leading to a greater understanding of health sciences as well as the professions of health sciences. Students explore concepts related to health care ethics, professions, basic skills of communication, and foundational physiological concepts. Content taught will also help students learn about pathways that lead to applied health occupations. Students will be exposed to careers in health sciences through speakers, job shadow opportunities, service work to better understand the health care needs of our diverse community, and field trips to community colleges, or universities. The course culminates in a health science leadership project and is part of the Health Science career learning area.

Career Cluster	Healthcare & Human Services
Credits	0.50
Grade(s)	9,10

Introduction to Fire & Emergency Services - Liberty High School

Introduction to Fire & Emergency Services explores career opportunities and requirements for emergency services responders. Related topics include nomenclature, history, basic chemistry and physics of emergency situations, life safety initiatives, laws, and loss analysis. Students become acquainted with the history, traditions, terminology, organization, and operation of the fire and emergency services industry. Typical job and operation descriptions will provide insight into the inner working of the fire service. Also included is an introduction to fire protection systems, specific fire protection functions, organization and function of the public and private emergency services. This course is the prerequisite to Fire Science 1. It is recommended for students enroll in a weight training class to build and maintain physical strength and conditioning.

Career Cluster	Fire Science
Credits	1.00
Grade(s)	10,11,12

Introduction to Aerospace - Liberty High School

This is an introductory course designed to give students a background in the aerospace industry from a multiplicity of cultural and career perspectives and offers students a wide overview of many possible career paths as well as a base of knowledge from which to build in later courses should they wish to continue with their aviation studies on either the Pilot Pathway or the Aviation Mechanic Pathway.

Career Cluster	Aerospace
Credits	1.00
Grade(s)	10

Research and Development - Liberty High School

This course provides structured guidance for students completing their senior exhibition in a physical science, engineering, or technology. The curriculum is designed for scientific inquiry and is made flexible enough to appeal to a variety of student interests. Students will learn advanced research skills necessary to prepare their senior project in scientific research or technological design. The course combines hands-on activities, demonstrations, group challenge problems, and a long-term student project..

Career Cluster	Computing
Credits	0.50
Grade(s)	12

Marketing Lab - Ground Up - Liberty High School

The Marketing Lab offers a dynamic program of management functions. Students will participate in the management of a successful business.

Career Cluster	Business and Marketing
Credits	0.50
Grade(s)	11,12

Marketing Lab - Ground Up - All Schools

The Marketing Lab offers a dynamic program of management functions. Students will participate in the management of a successful business.

Career Cluster	Business and Marketing
Credits	1.00
Grade(s)	10,11,12

Marketing Lab - Liberty High School

The Marketing Lab offers a dynamic program of management functions. Students will participate in the management of a successful business.

Career Cluster	Business and Marketing
Credits	0.50
Grade(s)	11,12
Prerequisites	Marketing 1

Leadership 1 - Liberty High School

This course is designed to instruct students in the various methods and techniques for planning, implementing, and evaluating projects related to school activities. Topics include committee organization, goal-setting, decision-making, time management, and all aspects of program planning. Students will focus on leadership skill-building. May be repeated.

Career Cluster	Leadership
Credits	1.00
Grade(s)	9

Leadership 2 - Liberty High School

This course is designed to build upon leadership skills involving planning, implementing and evaluating projects related to school activities. Topics include leading committees, project management and organization, SMART goal setting, time and task management, and all aspects of project and program planning. Students will focus on advanced leadership skill building. May be repeated.

Career Cluster	Leadership
Credits	0.50
Grade(s)	10,11,12

Marketing 1 - All Schools

This course offers students the opportunity to develop leadership skills and to plan for careers in marketing, merchandising, and retailing. Topics include success strategies, starting a business, advertising, promotion, merchandising, and business organization.

Career Cluster	Business and Marketing
Credits	0.50-1.00
Grade(s)	9,10,11,12

Marketing 1 - Liberty High School

This course offers students the opportunity to develop leadership skills and to plan for careers in marketing, merchandising, and retailing. Topics include success strategies, starting a business, advertising, promotion, merchandising, and business organization.

Career Cluster	Business and Marketing
Credits	0.50
Grade(s)	9,10,11,12

Marketing 2 - Liberty High School

Marketing 2 is an advanced study course using the application of concepts through project-based learning activities. Topics include sports and entertainment marketing, marketing functions, market research, management functions, business organization, communications, advertising, and promotion.

Career Cluster	Business and Marketing
Credits	0.50
Grade(s)	10,11,12
Prerequisites	Marketing 1

Mechanic 1: Aircraft Applied Science - Liberty High School

This mechanics-based aerospace course covers aircraft weight and balance procedures and associated record keeping. Students will also learn and have hands-on experience with aircraft drawings, precision measuring tools and some basic principles of physics.

Career Cluster	Aerospace
Credits	1.00
Grade(s)	11
Prerequisites	Introduction to Aerospace

Mechanic 2: Materials & Processes and Aviation CFRS - Liberty High School

This mechanics-based aerospace course covers several general aircraft maintenance subjects including power tools, shop equipment, aircraft hardware, fluid lines and fittings, non-destructive testing methods, heat treatment, aircraft cleaning, and corrosion control.

Career Cluster	Aerospace
Credits	2.00
Grade(s)	12
Prerequisites	Introduction to Aerospace

Sports, Entertainment & Event Marketing - Liberty High School

This foundation level course gives students exposure to such areas as event planning, event promotions and advertising, and facility and event management. In this course, students will be given the authentic opportunity to plan their own events

Career Cluster	Marketing, Sales, Management, & Entrepreneurship
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Marketing 1

Musical Theatre - Liberty High School

This course integrates music, dance, and theatre to provide training in musical productions. Students learn how to create mood and character through effective use of words, music, dance, movement, and vocal styles. This course culminates in the production of a musical performed for the public.

Career Cluster	Theatre & Film Arts
Credits	0.50
Grade(s)	9,10,11,12
Prerequisites	Theatre 1 or any choir course

Uas Operations: Drone Pilot-Part 107 License - Liberty High School

This course will cover small unmanned aircraft performance, ethics, human factors, aeronautical decision-making and judgment, safety protocols, weight and balance, maintenance, aviation weather sources and effects of weather (micro-meteorology) on small unmanned aircraft performance, small unmanned aircraft loading and performance, emergency procedures, crew resource management, and preflight inspection procedures. Students will be provided the opportunity to participate in multiple practice examinations. Students will be prepared to complete the Federal Aviation Administration's Part 107 Remote Pilot Knowledge Test upon completion of this course.

Career Cluster	Aerospace
Credits	1.00
Grade(s)	11,12
Prerequisites	Introduction to Aerospace

Yearbook Staff - Liberty High School

This course produces the school's yearbook. Yearbook eDesign software and other photography and writing techniques of yearbook will be taught. Students (yearbook staff) will participate in development of the book by coming up with coverage topics, taking photos, writing copy, interviewing, designing and more.

Career Cluster	Communications
Credits	1.00
Grade(s)	9,10,11,12
Prerequisites	Application with teacher recommendation required. May be on Yearbook staff all four years of high school, but must apply each year.

Piano 1 - Liberty High School

Piano 1 is designed for beginners and aspiring pianists who want to develop a foundation in piano playing. This course provides students an introduction to, and refines the fundamentals of, music and keyboard including literature and techniques such as scales, chords, and melodic lines and may offer instruction in more advanced techniques. Students will learn essential fundamentals, including proper posture, hand positioning, and finger exercises. The curriculum covers basic music theory, reading sheet music, and playing simple pieces from various genres. By the end of the course, students will be able to perform basic melodies and have the confidence to move towards more advanced classes in music. No prior experience is required.

Career Cluster	Performing Arts
Credits	0.50
Grade(s)	9,10,11,12

Pilot 1: Aerodynamics and Systems - Liberty High School

This course introduces aerodynamics through hands-on learning, exploring various concepts & theories relevant to modern aviation, including the positive and negative effects of various aerodynamic forces and how pilots manipulate those forces to affect the performance of various airborne and ground based vehicles. Students will look at the impact that weight distribution can have upon an airborne vehicle's aerodynamic controllability, and how atmospheric conditions affect the aerodynamic properties of objects. Students will explore the systems that make manned and unmanned aircraft work, including propulsion, fuel, electrical, landing gear, and environmental systems as well as the flight instruments associated with each system and how to identify and troubleshoot common problems.

Career Cluster	Aerospace
Credits	1.00
Grade(s)	11
Prerequisites	Introduction to Aerospace

Pilot 2: Private Pilot Ground - Liberty High School

This pilot-based aerospace course covers fundamentals of flight, aeronautical publications, Federal Aviation Regulations, navigation, flight planning, radio procedures, and weather. Presents sufficient knowledge to prepare for the FAA Private Pilot Airplane knowledge test. This course is designed to meet the requirements of Federal Aviation Regulations - 14 CFR Parts 61.103(d) & 61.105(b) or 141 Appendix B (3)(b) for obtaining endorsement for taking the FAA Private Pilot Airplane knowledge test.

Career Cluster	Aerospace
Credits	2.00
Grade(s)	12
Prerequisites	Aircraft Systems & Performance

Pre-Calculus - Liberty High School

Pre-Calculus is a rigorous course which emphasizes a multimodal approach to mathematics with concepts, results, and problems being expressed graphically, numerically, analytically, and verbally. This course is focused on the skills and knowledge necessary for the student to successfully continue their mathematics education with Calculus. More specifically, this course will cover and strengthen advanced algebra concepts through greater problem complexity, with a later focus on trigonometry and trigonometric functions.

Career Cluster	Mathematics
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Algebra 2

Principles of Engineering - Liberty High School

This course helps students understand the field of engineering/ engineering technology. Exploring various technology systems and manufacturing processes help students learn how engineers and technicians use math, science, and technology in an engineering problem-solving process to benefit people. The course also includes concerns about social and political consequences of technological change. This course is part of the Project Lead the Way engineering program at Glencoe.

Career Cluster	Engineering & Electronics
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Data Reasoning & Geometry

Technical Theatre Production 1 - Liberty High School

This course offers a hands-on approach to becoming acquainted with theatrical equipment, basics of scene, light and sound design. The student will learn and participate in the fundamentals of technical theatre. This may include running crew for shows, set construction, shop and auditorium maintenance.

Career Cluster	Theatre & Film Arts
Credits	1.00
Grade(s)	9,10,11,12

Technical Theatre Production 2 - Liberty High School

This course builds on the student's skills and abilities learned in Technical Theatre 1. Heavy set construction as well as design is emphasized. Students may '93crew'94 shows, and continue studies in design. Ability and willingness to work cooperatively and independently is expected.

Career Cluster	Theatre & Film Arts
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Tech. Theatre 1

Studio Production - Liberty High School

Students will lead, coordinate, manage, and participate in live television broadcasts, using our in house studio. Students will work effectively as a team, demonstrating creativity and advanced production skills as they recognize, anticipate, and respond to customer needs. Students produce a regular news program.

Career Cluster	Communications
Credits	1.00
Grade(s)	11,12

Programming 1 - Liberty High School

This course begins with developing understanding of concepts and skills. No programming experience is required. Students are encouraged to develop a professional approach to programming, which involves solving a problem through careful designing, coding, and documenting of programs. Topics will include variables, expressions, statements, functions, conditionals, recursion, loops, and sequences.

Career Cluster	Computing
Credits	1.00
Grade(s)	10,11,12

Psychology - Liberty High School

The emphasis in this course is on the study of human behavior. Why do we act or behave the way we do? The course explores such topics as learning, memory, personality, emotions, and mental illness.

Career Cluster	Social Science
Credits	0.50
Grade(s)	10,11,12

Robotics 1 - Liberty High School

Students will solve a variety of engineering challenges, working with mechanical and sensor components to design, build, and test robotic solutions. Various robotic challenges are presented. Students solve problems individually and in teams. Robot construction and programming may explore engineering concepts, such as: design reliability, external sensor inputs, conditional branch decisions, procedural programming, and effective output. There will be a heavy emphasis on problem-solving and engineering design cycle.

Career Cluster	Engineering & Electronics
Credits	0.50
Grade(s)	9,10,11,12

Robotics 2 - Liberty High School

This course expands students' understanding of robotics by improving programming and mechanical skills. More activities and complex tasks requiring critical problem-solving are provided. Students learn how to build robots using a variety of robotics building systems. Students will program these robots using several programming language systems. Students participate in or help with a robotics contest.

Career Cluster	Engineering & Electronics
Credits	0.50
Grade(s)	9,10,11,12

Senior Seminar - Liberty High School

This course should only be taken if a student is not eligible for a CCP capstone course. CCP capstone courses are where students should ideally complete their senior project. Completing a senior project is an HSD graduation requirement and also supports students in meeting Oregon Diploma requirements. Senior Seminar provides students the opportunity and support to design and implement their senior project. The project will represent the interests, knowledge, and skills they have gained in high school and how those skills apply to their identified postsecondary plan. Students will complete an education plan and profile, a resume, an extended application project and paper that connects to their career plan, a career related experience, and participate in a senior showcase presentation.

Sociology - Liberty High School

Sociology means the study of society. It is concerned with groups and with actions of individuals within groups. In this course, students pursue an analysis of the nature and structure of society. Students will study the way sociologists perceive society; the process of becoming a social being; the way society is organized; the nature and structure of social institutions; and the study of race relations and gender roles. As a result of this course, it is hoped students will see the need for an understanding of the forces within society and these influences on our behavior.

Study Skills - All Schools

The Social Learning Center Study Skills Program is designed to provide students with a comprehensive support system aimed at enhancing both their academic performance and emotional well-being. This course focuses on equipping students with essential skills for becoming more effective learners, improving their organizational abilities, and fostering self-advocacy in their academic journey. Through personalized support, students will gain strategies to manage stress, improve time management, and develop study techniques tailored to their learning style. The program also emphasizes building emotional resilience, helping students navigate challenges both in and outside the classroom. Students will learn how to advocate for their own needs, communicate effectively with educators, and utilize available resources to maximize their academic success. In addition, the course will help students develop key organizational skills, such as note-taking, task prioritization, and goalsetting, which are essential for staying on track and achieving long-term academic goals. By the end of the program, students will not only feel more confident in their academic abilities but will also have a toolkit for self-advocacy and organization that will serve them throughout their education and beyond.

Theatre 1 - Liberty High School

This introductory course assists in developing confidence and enjoyment while focusing on the fundamentals of acting. Class curriculum includes: pantomime, script writing, improvisation, character research, written critique and script analysis.

Career Cluster	Theatre & Film Arts
Credits	1.00
Grade(s)	9,10,11,12

Theatre 2 - Liberty High School

Students will improve on the skills learned in Theatre 1 by engaging in more complex script work with attention to performance theory and historical contexts. This course has mandatory research, writing and performance curriculum.

Career Cluster	Theatre & Film Arts
Credits	1.00
Grade(s)	10,11,12
Prerequisites	Theatre 1

Theatre 3 - Liberty High School

Students will begin to use methods of acting that work best for them as individuals, with guided exercises grounded in ancient, classic and modern texts and performance theories. Directing theory, including advanced script analysis is incorporated as the student prepares more rigorously for performance. In some cases, the class will offer a production for a portion of their grade.

Career Cluster	Theatre & Film Arts
Credits	1.00
Grade(s)	11,12
Prerequisites	Theatre 1, Theatre 2

Theatre 4 - Liberty High School

Students continue to study production, direction, acting theory and script analysis with a focus on critical analysis of theatre and its role in society. Student-directed and written one-acts or other class productions are a significant unit at the advanced level.

Career Cluster	Theatre & Film Arts
Credits	1.00
Grade(s)	12
Prerequisites	Theatre 3

You & the Law - Liberty High School

This course will explore the dimensions of civil and criminal laws, current legal trends, and constitutional interpretations as they apply to individual rights. In addition, students will discover how social class, race, gender, hierarchy, definitions of deviance, and classes of criminal and civil offenses influence what happens to people. Students will learn how people behave and how they relate to those institutions set up to service the public. Mock trials and applications of scientific methodology give this class a 'hands-on' approach.
